HAIMER Power Collet Chucks

- Chuck body fine balanced G2.5, 25,000 1 / Min
- All functional surfaces fine-machined
- Taper tolerance AT3
- Coolant Supply Form ADB
- High runout accuracy .003mm at 3xD with Haimer Power Collets
- Also for Standard ER ISO 15488 / DIN 6499
- Note: When using standard ER collet gage length will get longer

Mount - CAT40

PARLEC V-Flange Power Milling Chucks

- Constructed of alloy steel for long, durable service life
- Hardened to RC 56-60 for long service life
- Shiny taper with black oxide finish for the best combination of accuracy and durability
- End mill socket T.I.R.≤.0002”
- Through-spindle coolant capability
- Parsymmetry™ design for high-speed operation
- Flange-entry coolant is available on request

SCHUNK Milling Chuck Holders

TENDO Benifits:

- Maximum true running and repeat accuracy greater than 0.003 mm
- Excellent vibration damping
- Improved surface quality
- Prevents chipping of tool cutting edge
- Versatile clamping range thanks to intermediate sleeves
- Accurate length presetting axially or radially
- Easy handling - without peripheral equipment tools are changed within seconds
- Precision-balanced as standard G 2.5 / 25000 1/min.

SINO Benefits:

- Universal toolholders is designed for multi-purpose use based on the expansion technology
- Vibration-damping design
- Micro-blowouts at the lip of the tool are reduced to a minimum.
- Improved surface quality of the workpiece
- Flexible clamping range due to use of intermediate sleeves
- Concentricity 0.005 mm measured in the clamping bore
- Precision-balanced as standard G 6.3 / 15000 1/min

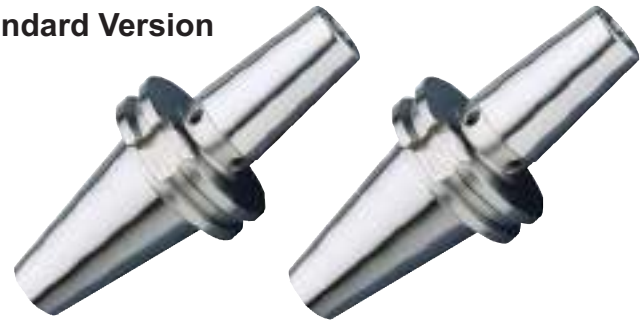
HAIMER CAT40, CAT50 Shrink Chucks - Standard Version



- Shrink fit chuck suitable to all kind of shrink fit units
- Fine balanced to G2.5 at 25,000 RPM
- Certified AT3 Taper
- High runout accuracy 3µm
- Heat resistant hot-working steel
- Hardened 54-2 HRC
- For HSS and solid carbide tools
- Shank tolerance h6
- With threaded holes in order to balance with balancing screws
- Cool Jet coolant bores that can be sealed included
- Made in Germany

F.O.B. Factory

HAIMER CAT40, CAT50 Power Shrink Chucks

The Power Shrink Chuck is the shrink fit chuck for highest machining capacity in high-speed manufacturing. The optimized design combines high rigidity with dampening vibrations, therefore giving more protection to machines, spindles and tools.

- Shrink fit chuck suitable to all inductive shrink fit units
- Precesion AT3 Tolerance Shank
- Balanced to G2.5 at 25,000 RPM or U

Shank - CAT40

Briney Shrink Fit Tool Holders

One of the original pioneers that introduced Shrink-Fit Tool Holders to the world now offer you choices. Whichever it may be, the original USA-ANSI Design Shrink-Fit Tool Holder or the newer European-DIN Design Shrink-Fit Tool Holder.

By Manufacturing both designs, Briney is instantly compatiable with our competitor's induction units and accessories.

USA-ANSI Standard

- 3° Nose angle
- Shorter bearing surface
- No back-up screw
- Superior holding force
- Consistent wall thickness throughout entire design
- **DIN Standard Available**

MADE IN THE USA

PARLEC Shrink Fit Tool Holders

- Improved concentricity
- Improved balance design with no moving pieces
- Low Centrifugal Forces due to low holder mass
- For maximum gripping power with exceptional concentricity
- Concentricity of ≤.0001" with tool shrunk in holder
- Chip load distributed evenly along cutting edge of tool which results in longer tool life
- Constructed of double tempered Tool Steel for exceptional durability and cycle life. With proper use, toolholder life should exceed that of standard end mill holders
- Tool is gripped 360° along the entire length of bore resulting in an evenly distributed clamping force
- Short projections are possible because no mechanical clamping devices are used. This results in greater rigidity and resistance to bending
- Simple and fast to use. The total time elapsed to remove one cutting tool and insert another is less than 10 seconds
- Through-spindle coolant capability
- Coolant through holders require no special backup screws or seals. The interference fit between the ID of the tool holder and cutting tool shank forms the seal, preventing the coolant from flowing anywhere else except through the coolant grooves
- The use of Heat Shrink Tooling allows for greater speeds and feeds, better finishes, increased tool life, and increased productivity due to its High Speed Machining capability and simplicity of use

RAPIDHOLD Retention Knobs

- Our retention knobs are made out of 8620 Alloy Steel
- Hardened to 60HRC
- Black Oxide coating for rust protection
- All contact surfaces are precision ground

Retention Knobs

- High Torque (HT) and High Torque High Strength (HTHS0 retention knobs will increase production 10 to 40%, reduce set-up times, reduce polishing times, increase spindle life, improve finishes and increase tool life
- HT knobs are manufactured from AISI 8620H material
- HS and HTSHS knobs are made from AISI 9310H
- HT and HTHS knobs will fit any toolholder made to industry standards
- HT and HTHS retentionknbos should be installed according to the manufacturer's torque chart provided with each knob using a retention knob socket and torque wrench
- Marked with serieal numbers

Retention Knobs

- High Torque (HT) and High Torque High Strength (HTHS0 retention knobs will increase production 10 to 40%, reduce set-up times, reduce polishing times, increase spindle life, improve finishes and increase tool life
- HT knobs are manufactured from AISI 8620H material
- HS and HTSHS knobs are made from AISI 9310H
- HT and HTHS knobs will fit any toolholder made to industry standards
- HT and HTHS retentionknbos should be installed according to the manufacturer's torque chart provided with each knob using a retention knob socket and torque wrench
- Marked with serieal numbers

Retention Knob Sockets

MADE IN THE USA

- Sockets aid in the installation and removal of Retention Knobs
- Ideal tightness is achieved, without rounding off the corners of the Retention Knob
- Note: Some Retention Knobs have mixed standards - Check the shoulder and Wrench Sizes carefully when selecting a Socket to fit other Retention Knobs not listed above
- Lifetime Guarantee
- Saves Time
- Sockets have 1/2" drive – ideal tightness is achieved

Rotary Tool Clamps

- 6-Position 45° Mounting Fixture
- Multiple use on ISO, Caterpillar and BT shanks
- Easy access for combined assembly of cutting tool and pull stud in one position
- Hardened and ground internal taper
- Tool holder secured by safety clamp screw
- Compact design for easy mounting on work table or tool cart

RAPIDHOLD™ CNC Tightening Fixtures

- Multiple usage on toolholder shank CAT, BT, NMTB & ISO
- Enables strong gripping power of cutting tools
- Access both ends of toolholders simultaneously
- Secures maximum protection of toolholder
- Tools can be mounted in vertical and horizontal positions
- High quality compact and rigid design for mounting on work table or tool cart

Super-Precision Intro-Pro Sets

MADE IN THE USA

The deluxe, affordable beginner's set built by the world's #1 quick change tool post manufacturer.

- Precision-engineered to ensure repetitive accuracy
- Advanced design provides built-in quick tool changing, versatility with positive rigidity to meet the most exacting working tolerances
- Quickly and easily installed on any engine lathe, bench or CNC lathe for a wide range of operations - from fine precision work to heavy duty cutting

Set Includes:

- Super Precision Tool Post
- #1 Turning & Facing Holder
- #2 Boring, Turning & Facing Holder

Series	Swing	Holders Included	Order No.	Price

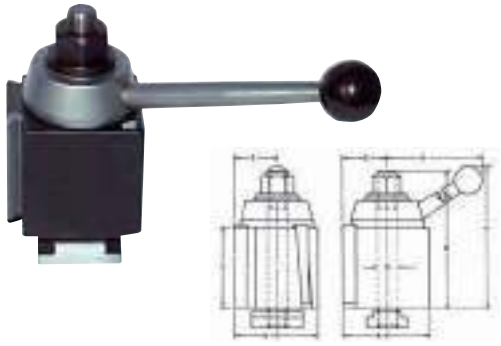
Super Precision Tool Posts



- Precision engineered to assure repetitive accuracy
- Advanced design provides built in quick tool changing versatility with positive rigidity to meet the most exacting working tolerances
- Quickly and easily installed on any engine lathe, bench or turret lathe, for a wide range of operations — from fine precision work to heavy duty cutting - Series AXA, BXA, CXA, CA, DA and EA

Features:

- Guaranteed lasting repetitive accuracy to within millionths
- Only a second to change tools
- Rugged — no chatter or vibration
- No time wasted with shims
- Unlimited versatility
- Safe and simple to operate

Description - No. 53 Morse Taper Tool Holder - Larger Taper			
Tool Cap.	**Swing**	**Order No.**	**Price**
3 MT	Capacity-Up to 12" Swing	**GG55740153**	Price
3 MT	Capacity-10 to 15" Swing	**GG55740253**	Price
4 MT	Capacity-13 to 18" Swing	**GG55740354**	Price
4 MT	Capacity-14 to 20" Swing	**GG55740454**	Price

Description - Piston Type Tool Post			
Tool Cap.	**Swing**	**Order No.**	**Price**
-	Capacity-Up to 12" Swing	**GG55740100**	Price
-	Capacity-10 to 15" Swing	**GG55740200**	Price
-	Capacity-13 to 18" Swing	**GG55740300**	Price
-	Capacity-14 to 20" Swing	**GG55740400**	Price

Description - Wedge Type Tool Post			
Tool Cap.	**Swing**	**Order No.**	**Price**
-	Capacity-Up to 12" Swing	**GG55740111**	Price
-	Capacity-10 to 15" Swing	**GG55740222**	Price
-	Capacity-13 to 18" Swing	**GG55740333**	Price
-	Capacity-14 to 20" Swing	**GG55740444**	Price

Piston Type Tool Post:
- Instant changing from one operation to another.
- A knurled nut on each tool holder provides for exact height adjustment, entirely eliminating the use of shims.

Wedge Type Tool Post:
- Wedge type tool posts are precision engineered to assure repetitive accuracy.

Interchangable with Aloris, Yuasa, and Phase II:
- All working parts hardened & ground
- Maximum rigidity for chatter-free performance
- No time wasted with shims
- Increases productivity of all lathe operations
- Completely sealed for maintenance-free operation
- Change tools in seconds

No. 1 Turning and Facing Tool Holder:
- Takes various sizes of bits
- Turning and facing tools can be locked in together

No. 2 Boring, Turning and Facing Tool Holder:
- "V" groove holds round shank boring bars and tools, as well as square tool bits

No. 4 & No. 41 Larger Capacity Heavy Duty Boring Bar Tool Holder:
- Equipped with a split bushing to accommodate a boring bar of smaller diameter

No. 5 & No. 53 Larger Taper Morse Taper Tool Holder:
- Drills with carriage by using power feed instead of tailstock

No. 7 Universal Parting Blade Tool Holder:
- For bevel as well as T-cut Blades
- Enables you to cut-off close to chuck

No. 10 Knurling, Facing and Turning Tool Holder:
- For turning and facing, as well as knurling
- Supplied with a set of high speed medium diamond knurls

Quadra® Indexing Quick Change Tool Posts

- 4 Tool Holders Lock Simultaneously
- Indexing repeatability of .000005”
- Toolholder locking repeatability of .0001”
- Ideal for prototype or high production
- Ideal for roughing and finishing
- Indexes every 15°
- Quick and Versatile for any operation

Super Quick Change Tool Post First Time Buyers Sets

- Zero Backlash
- Triple Action Wedge Style Locking System
- Precise Repeatability within .0001”
- 15° Locking Handle Position Adjustment
- Fully interchangeable with most industry standard tool posts

MADE IN THE USA

Super Quick Change Tool Post First Time Buyers Set Includes:

- Tool Post
- #1 Turning & Facing Holder
- #2 Turning, Facing & Boring Holder
- #7-71C Cut-Off Holder
- #881 Threading & Grooving Holder
- Also includes 1 Square Shank Tool, 1 Boring Bar, 1 Cut-off Blade, 1 Internal Threading Bar, and 5 inserts

Tooling & Carbide Inserts Included

Lathe Swing (in.)	Set Includes	Order No.	Price

Modular Knurling Tools

Cutting Type:
- Exerts less pressure on the part
- Creates chips
- Runs at higher speeds and feeds than forming type knurling tools
- Use sharp corner knurl wheels
- For diamond patterns only

Forming Type:
- Exerts a lot of pressure on the part
- Displaces material to form the knurl
- Straddle type pinches the material with top and bottom wheels and eliminates side pressure
- Ideal for long slender, thin walled, unsupported or poorly supported parts; or whenever part deflection due to side pressure is a concern
- On all forming type knurling tools use beveled edge knurl wheels

Warnings:
- **SCKN, SSCK, SWFKT & HDSWFKT** - May cause deflections on small part diameters, and too much pressure on large diameters
- **KTW109 (Heavy Duty & Shoulder)** - This tool has the capability to adjust the wheels until they touch, but physically applying a knurl on small diameters may not be possible
- **KTO109-40 & KTW109-40** - Physically applying a knurl on small diameters may not be possible

Style - Double Wheel Forming - Diameter Range Greater than 5/16" Includes - Set of Beveled diagonal high speed beveled TiN coated knurl wheels, 25 TPI for a male diamond pattern

Item	Description	Model No.	Shank Size	Knurl Wheel Type	Knurl Pin Set No.	Order No.	Price

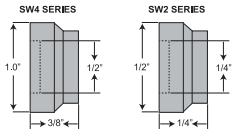
Knurls

MADE IN THE USA



- "SW" knurling wheels are technically designed to knurl against a square shoulder
- With super precise workmanship, the wheels are made of heat treated High Cobalt Steel to withstand severe knurling operation
- Knurl wheels are Titanium Nitrating coated to reduce the co-efficient of friction when knurling, increasing the quality and the force of knurling as well as the life of the knurl wheels
- All SW Series knurl wheels are available only in cobalt and tin coated
- Tools Used On "SW2" Series: SCNC-37, 50, 162-1-2, CNC-75, 100, 125-1-2, SCNC-37K, 50, 162-6-2, SCNCKH-1-2, SCNCKH-6-2, CNCKH-1-2, SSCK38-2, SSCK-50-2
- Tools Used On "SW4" Series: SSCK-75-4, SSCK-100-4, SSCK-125-4, KTW109-75-2-4, KTW109-100-2-4, KTW109-100-3-4, KTW109-125-3-4
- Circular Pitch Knurls are made to extremely high standards from the finest materials available
- Knurls are individually hob cut and lapped to a smooth hard finish to give longer life and impart a smooth clean surface to the knurled part
- Knurls available in High Speed, Cobalt, TIC/N - Coated, beveled, and diametral pitch
- Tools Used On "D" Series: SCNC-37-7-D, SCNC-50-7-D, SCNC-162-7-3, SCNCKH-7-D, 3SHKT-50-D, 3SHKT-162-D, SCK5-50-D
- Tools Used On "M" Series: CNC-75, 100, 125-3-M, CNCKH-3-M, SCK-75, 100, 125-M, 3SHKT-75, 100, 125-M
- Tools Used On "O" Series: CNC-75-5-O, CNC-100-5-O, CNC-125-5-O, CNCKH-5-O
- Tools Used On "R" Series: CNC-75-2-4, CNC-100-2-4, CNC-125-2-4, CNCKH-2, CNC-75-7, CNC-100-7, CNC-125-7

EAGLE ROCK The "New" Generation of Wettstein™ USA Scissor Type Knurling Tools

- Machine: Manual or CNC Lathe
- Capacity: 0-2-1/8"
- Knurl size: Style E 3/4" x 3/8" x 1/4"
- Knurl patterns: Straight (2 knurls AA) Diamond, Male (1 knurl BL, 1 knurl BR)
- Knurls included: 1 Set (1 knurl BL and 1 knurl BR) Medium pitch, Diamond pattern)

EAGLE ROCK Bump Type A1-30 Solid & Round Shank Knurling Tools

A1-30 Solid, 1 Pc., CNC Shank Bump Type Knurling Tool:

- Our exclusive offset shank allows for virtually no turret overhang of the knurls
- Since the knurl head is on the side of the holder, you can insert the tool in your turret with as little (or as much) overhang as you want
- Head is self-centering to accommodate for any misalignment
- Includes one set of a Medium pitch, Diamond pattern (BL and BR) knurls

A1-30 Round CNC Shank Bump Type Knurling Tool:

- Head is self-centering to accommodate for any misalignment
- Can also be used for Internal Knurling
- Includes one set of Medium pitch, Diamond pattern (BL and BR) knurls

EAGLE ROCK Swivel Head with 2 Knurls

- The A1-71 is arguably one of the most popular knurling tools in the world
- Guaranteed to outlive and outperform any of the imported knockoffs
- Each A1-71 includes (1) set Medium pitch, Diamond pattern (BL and BR) knurls

Shank Size (in.)	Knurl Wheel Size	Order No.	Price
5/16 x 3/4	AJ- 5/8 x 5/16 x 7/32	**GG40A1710750AJ**	Price

1/2 x 1-1/8	E- 3/4 x 3/8 x 1/4	**GG40A1711125E**	Price
5/8 x 1-3/8	E- 3/4 x 3/8 x 1/4	**GG40A1711375E**	Price
7/8 x 1-3/4	K- 1 x 3/8 x 5/16	**GG40A1711750K**	Price

Circular Pitch Knurls

- The circular Pitch Knurl System is the older system and has been in use many years
- The spacing of the teeth is measured by the number of teeth per inch (TPI) around the circumference
- Knurling can be done with many types of holders made for knurling or with any holder (or machine) made for thread rolling

Model 14 - Tool Post Grinder with Integral Spindle 1/4HP

Internal & External Grinding Capabilities

MADE IN THE USA

- Designed specifically for internal and external grinding on home-shop lathes
- Supplied with 1/8" chuck mounted wheels, pulley, belt, mounting post, tee-bolt, wheel collars, general purpose wheels and steel carrying case
- For lathes up to 7" swing
- Grinding speeds 10,000 RPM and 22,500 RPM
- External grinding capacity 1/8" - 2" diameter wheels
- Internal grinding capacity: 1/2" min., 2-1/4" max depth
- Tool Post Grinder complete, 115 V AC/DC

Order No.	Price
RL9514011	Price

External & Internal Grinding Kit

Kit Includes:

- Tool post grinder
- 8 Insert Spindles: 5T-200, TX, TC, 5N-158, TN-3, TN-4, TN-5 & TN-6
- 3 External grinding wheels
- 4 Mounted wheels
- 2 Internal grinding wheels
- Diamond wheel dresser
- Pulleys
- Belts
- Carrying case

MADE IN THE USA

Motor	Order No.	Price
1/2 HP	**RL955750T**	Price
3/4 HP	**RL955775T**	Price

External Grinding Kit

Kit Includes:

- Tool post grinder
- External 5X-350 grinding spindle
- 3 General purpose grinding wheels
- Diamond wheel dresser
- Pulleys
- Belts
- Carrying case

MADE IN THE USA

Motor	Order No.	Price

Model 12 - Tool Post Grinder with Interchangeable Spindle - 1HP

MADE IN THE USA

- A natural for large heavy work and continuous operation
- Interchangeable spindles for external and internal grinding avaible
- 8" Diameter wheel capacity
- Flat-belt drive, vertical spindle adjustment
- Comes with pulleys, flat-belts, belt guard, mounting post, T-bolt, wheel guard and diamond dresser
- For lates with 20" or larger swing

Description	Order No.	Price
115V, 60Hz, Single Phace, AC Only	**RL9512011†**	Price
220/440V, 50/60 Hz, 3PH, AC Only	**RL9512022†**	Price

Model 57 - Tool Post Grinder with Interchangeable Spindle - 1/2HP & 3/4HP

- 6" Diameter external grinding wheel
- Internal grinding up to 18" deep at 1-7/8" diameter
- Comes with belts, pulleys, belt guard, T-bolt, mounting post, diamond dresser, wrench set and carrying case
- For lathes with swings from 9" to 20"

MADE IN THE USA

Style	Order No.	Price
1/2 HP Induction Motor, 115V, 60 Hz, AC Only	**RL9557021**	Price
3/4 HP Univeral Motor, 115V, AC/DC	**RL9557031**	Price

Model 25 - Tool Post Grinder with Interchangeable Spindle - 3HP

MADE IN THE USA

- Handles large external and surface grinding jobs by coverting any standard machine tool into a big capacity grinder
- Mounts on lathes 20" or larger, heavy duty milling machines, planers, boring mills, etc.
- Equipped with built-in magnetic starter, overload protector and grease-sealed bearings
- Holds up to 12" diameter wheels
- For internal grinding uses Series 12 spindles

Style	Order No.	Price
220V, 50/60 Hz, 3PH, AC Only	**RL9525022‡**	Price

Tool Post Spindles

- SPINDLE SELECTOR CHART (Must be ordered separately for Model 12, 25 & 57 Grinders)
- When ordering 12N internal and 12X external spindles for the Model 25 Grinder, order Adapter Kit Order No. 858-0035. Kit contains correct belts and pulleys.
- When ordering 25X external spindles for the Model 12 Grinder, order Adapter Kit Order No. 858-0034. Kit contains correct belts, pulleys and 12" wheel guard.

RAPIDHOLD™ Toolholder CNC Bushings

- **C Style Tool Holder Bushing:** Elongated slot, universal style, designed to fit all types of Set-screw configurations
- **J Style Tool Holder Bushing:** Two hole style requires precise alignment of set screws
- **B Style Tool Holder Bushing:** Split style, shorter length, clamp on flat; bushing collapses to hold tool
- **CV Style VDI Tool Holder Bushing:** Designed to fit the form E2 VDI boring bar holder
- Clearance holes to clamp directly on the tool
- Used to adapt drills, boring bars, and other tools

Live Center Sets

- Body of live centers and inserts are made of forgings, hardened and precisely ground
- Sets are provided with the main body and seven different style inserts in a wooden case
- Precision high quality bearings
- Special sealing ring protects the bearings from coolant and dust
- Inserts are easily interchangeable

Slim Casing Live Centers

- For counter-clamping workpieces on turning and grinding machines
- Suited for cramped work area between center point and workpiece
- Enlarged work area and better workpiece accessibility thanks to narrow casing diameter
- Maximum rigidity at high speeds
- Maximum concentricity deviation of 0.0002" for maximum precision

New!

ROYAL PRODUCTS Value-Turn™ Live Centers

MADE IN THE USA

- A sturdy low-cost center designed for general medium-duty turning applications
- ±0.00005" T.I.R. guaranteed
- Precision three-bearing design enables the Royal Value-Turn® to achieve both high RPM's and solid load ratings
- Head is hardened for strength and durability

ROYAL PRODUCTS Heavy Duty Spindle Type Live Centers

- An excellent heavy-duty live center designed to handle most turning applications
- ±0.00005" T.I.R guaranteed
- Heavy-duty precision bearings provide exceptional thrust and radial load capacities
- The substantial point extends into the shank where it is supported by a large needle bearing for increased strength and rigidity
- Bearing life is significantly extended with the exclusive Royal Roto-Shield™ coolant slinger and upgraded, long-life, spring-loaded seal that is resistant to abrasion, high temperatures and virtually all metalworking fluids
- Body and point are hardened for strength and durability
- On the CNC model, the extended point provides great tool clearance

Point Style - CNC

Perfetta™ Quattro Forte Heavy Duty Live Center

Finally, A Live Center With Taper Bearings!!!

- Taper bearings are used in the design of lathe headstocks to support the spindle
- Heavy-duty bearing type to support radial and axial forces

Features:

- Precision Concentricity T.I.R. .00015
- Heavy-duty precision quad bearings
- Bearings permanently lubricated
- Chromium-Molybdenum Alloy Steel
- Surface heat treated to 62Rc and precision ground manual lathes

Style - 60° Extended Large Steel Point

Bull Nose Live Centers

New!

- Centers are designed to hold pipe and hollow work
- Triple bearing design
- Three matched bearings are preloaded at the factory
- Good thrust and radial capabilities
- Bearings are protected by a special seal
- Head is made of high quality alloy steel and heat treated to RC 61-63
- 60 degree head angle

ROYAL PRODUCTS High Precision Quad Bearing Live Centers

- Great for grinding and tight tolerance turning
- ±0.00005" T.I.R. guaranteed
- Three precision angular contact bearings are secured to the point with a locknut to form a rigid, preloaded assembly
- The point extends into the body where it is supported by a needle roller bearing, which further increases rigidity, reduces point deflection, and dampens vibration
- Bearing life is significantly extended with the exclusive Royal Roto-Shield™ coolant slinger and upgraded, long-life, spring-loaded seal that is resistant to abrasion, high temperatures and virtually all metalworking fluids
- Low profile head provides excellent tool clearance
- Body and point are hardened for strength and durability

Super Accurate Live Centers

- The ultimate live center for grinding is provided by Riten's unique design
- Ideal for precision grinding applications
- Accuracy guaranteed to ±.00005 T.I.R.
- Compact design
- Extended points available
- Ideal for grinding
- 1000 RPM maximum - For all Super Accurate
- Riten full service, repair, and guarantee apply

ROYAL PRODUCTS Versa-Turn Live Centers

- A great multi-purpose live center designed to handle most common turning jobs
- Extended point provides good tool clearance
- Bull head is great for tubes and parts with large center holes
- ±0.00005" T.I.R. guaranteed on both sections of rotating point
- The Royal Versa-Turn is extremely free turning — excellent for thin parts that can't take high thrust loads
- Head and shank are hardened for strength and durability

Riten Multi-Use Live Centers

- Ideal for general machine shop use
- Can be used when machining thin-walled workpieces or general shaft work applications
- The versatility of this center makes it a "must have" tool when your center needs change frequently
- Accurate to ±.0001 T.I.R.
- Great for manual lathe applications
- Riten full service, repair, and guarantee apply

TOOLMEX Industrial Solutions 3-Jaw Direct Mount Power Chuck

- Supplied with spindle mounting plate, Semi-finished draw nut, draw nut wrench, set of soft top jaws, set of t-nuts, wrenches for chuck installation and operation.
- Low cost direct replacement for major OE brands
- High performance and great value
- Use existing top jaws 1.5mm x 60° serrations
- Hardened and ground critical surfaces for long life and high accuracy
- Large thru hole
- 1 Year Warranty

PRM Bench Milling & Drilling Machines

Used in many prototype shops, labs, maintenance shops . . . even home use.

- Versatile and multi-purpose machine can be used for drilling, milling and even tapping
- Has features of many larger mills, sturdy construction, headstock swings 360° and moves up and down on column to meet various job requirements, R8 taper spindle, bronze adjustable leadscrew nuts, large cast tables with T-slots, heavy duty tapered roller bearings to support the spindle, hinged belt cover allows speedy belt changes, satin finish easy to read dials, positive easy to read depth gauge
- RF25, RF311 & RF313 are step pulley heads
- RF40 is gear head
- RF313PFS equipped with powerfeed on the spindle
- 1 Year parts warranty

Standard Equipment:

- Manual reversing switch, tilting vise, shell end mill cutter, cutter arbor, 1/2" drill chuck, drill chuck arbor, service tools and instructions

Optional Accessories:

- Steel cabinet stand (shown below)
- Powerfeed for table (shown below)

PRM Steel Cabinet Stand

Fits all Table Top Mills Shown

- Size: 23-1/4" wide x 31-1/4" deep x 28-1/2" tall

Weight	Order No.	Price
68 lbs	**RL80RFS**	Price

PRM Mill/Drill Powerfeed

- For bench milling and drilling style machines
- 0-270 RPM
- 2.8:1 Drive gear rate
- 560 in/lb Maximum torque

Weight	Order No.	Price
15 lbs	**RL80RF30BPFT**	Price

JET Milling/Drilling Machines

New!

Features:

- 1 Pc. cast iron column for added support
- Belt cover quick slide latch allows faster belt adjustment to change spindle speeds
- Extra large worktable
- Heavy-duty tapered roller bearings support the spindle, resulting in greater tolerance and more accurate drilling depth
- New positive quick-stop knob and easy-to-read internal depth gauge (external on JMD-15)
- 360° Head swivel
- Heavy-duty power downfeed with manual fine feed (JMD-18PFN)
- Three power down feeds (JMD-18PFN .004", .007", .01")
- Worklamp
- Adjustable carbide facemill
- Drill press angle vise
- 1/2" Capacity Drill chuck, chuck arbor
- Draw bar
- 2 Year Warranty

PALMGREN Geared Head Milling Machines

- Variable speed gear head milling machine delivers precision, power and versatility to handle a wide range of small workpiece metalworking applications
- The all gear drive transmission delivers full power at any speed
- Equipped with a high performance brushless DC motor permanent current control and infinitely variable speed
- Rigid box column with hardened and ground hand scraped dovetail ways
- All gear drive transmission with 2 step gear box
- The milling head can be tilted right or left up to 90 degrees
- Cross slide table is precision ground with t-slots, adjustable limit stops, scale and two metal adjusting hand wheels
- Interlocking spindle safety guard
- Draw bar
- Safety electrical system with emergency stop button and 24 volts at all the switches
- Two Stage Gearing Motor
- Swing Away Safety Shield with Micro Switch
- Depth stop
- 3 Year Warranty

Variable Speed Square Column Geared Head Mill Drills

Features:
- Heavy-duty design allows for a variety of precision drilling applications
- Full power to the cutting tools through 6 speed geared head
- CSA/CUS: Following strict guidelines and electrical requirements, this JET Mill Drill is CSA/CUS certified
- Spindle guard
- Work Lamp
- Calibrated fine down feed built in
- Easy to read internal depth gauge
- Head tilts left & right 90º
- Rapid spindle speed changes through quick-select gear shift levers
- Forward/reverse switch Milling table allows for movement
- R8 spindle allows use of all mill tooling
- 2 Year Warranty

JET 8" x 36" Table Step-Pulley Vertical Milling Machines

Features:
- (5) Spindle Speeds: 240 to 1550 RPM
- Precision bored and honed milling head
- Large diameter chromed quill
- High precision spindle bearings
- Over 10” of front to back ram travel
- Table, knee and saddle feature a lock
- Precision ground table
- Head tilts left or right
- Graduated scale on column
- Precision ground dovetail ways
- Equipped with fine downfeed
- An Economical Mill For The Home Shop And Small Job Shops.
- Mill Shown with Optional Table Powerfeed
- 2 Year Warranty

Bridgeport by HARDINGE 9" x 49" Table Variable Speed Vertical Milling Machine

- Series I Standard Mill is the original milling, drilling and boring machine
- Series I Knee Mill is the most popular mill ever made with over 370,000 machines built over the past 70-plus years

Features:

- One-shot lubrication system
- Chrome-plated ways and gibs
- Color machine tool gray
- Class 7 precision spindle & anti-friction bearings
- Built-in fine powered quill downfeed
- Rapid adjusting-fine position micrometer (educated nut)
- OSHA approved standard cutter guard
- 1 Year Warranty Parts

PRM 9" x 50" Table Variable Speed Knee Type Milling Machine

Features:

- Meehanite casting
- Hard chromed ways (X & Y Axis)
- Spindle unit made from one piece alloy steel, supported by two precision angular contact and one ball bearing to ensure rigidity
- Spindle inner taper hardened and precision ground
- Dynamically balanced pulleys and precision bearings
- Spindle back gear running in grease packed housing to ensure fatigue strength and low noise
- Chrome coated and mirror ground finished quill
- Rigid head tilting system greatly increases the stability and rigidity when vertical head tilted at all angles, front and back. 6 T-bolts to lock knuckle to ram instead of 3
- Unique double nuts and backlash adjusting design, contact face enlarged ensuring accuracy over time and easy backlash adjustment.
- One shot lube
- Front and rear way covers
- Tool kit
- 1 Year Warranty Parts

9" x 49" Table Variable Speed Mill

Features:
- Mounted control box
- Emergency stop button
- Stainless steel Y-Axis way cover
- Head mounted electronic spindle brake
- Class 7 spindle bearings
- Pre-loaded thrust bearings
- Hardened and ground lead screws
- Double nut adjustment mechanism
- Certified Meehanite® castings
- Automatic lubrication every 30 minutes
- CSA/UL approved safety electronics
- 3 Year Warranty

Standard Equipment:
- Spindle safety guard
- Halogen machine lamp
- Dual locks on all surfaces
- Toolbox with tools
- Tolerance test sheet

JET 10" x 50" Table Variable Speed Milling Machine

Features:
- 750 lbs. Table Capacity
- Meehanite casting
- Hardened and ground table
- Precision bored and honed milling head
- High Precision Class 7 spindle bearings
- Internally cooled spindle head
- Way covers
- Chrome plated motor shaft with bearing support at end
- Chrome lead screws on X and Y Axis
- Turcite B on X and Y Axis
- Hardened and ground square vertical knee ways and cross ways
- 2 Year Warranty

Standard Equipment:
- One-shot lubrication system
- Draw bar
- Tool box with tools

JET 12" x 54" Table Variable Speed Vertical Mill

Features:
- Certified Meehanite® Castings
- Quick Spindle Feed Nut
- Three stage power downfeed with automatic stop
- Heavy duty spindle brake
- Precision hardened and ground ways and table
- Turcite B on X & Y Axis
- CSA/CUS: Following strick guidelines and electrical requirements, these JET Mills are CSA/CUS certified
- Spindle Guard
- Automatic Lubrication
- Two 115V outlets on electrical box for Powerfeeds only
- Two Year Warranty

Standard Equipment:
- Spindle Safety Guard
- LED Machine Lamp
- Dual Locks on all moveable surfaces
- Chip Pan
- Draw bar
- Tool box with tools

PALMGREN 9.843 x 43.3" Horizontal Milling Machine

- Universal horizontal milling machine features a rigid knee and column construction and has the ability to do either horizontal or vertical milling
- Equipped with a power table feed, vertical spindle attachment and a wide range of spindle speeds
- Internally ribbed, box column
- Precision ground and t-slotted table
- Flame hardened to RC 50-54, precision ground and hand scraped ways
- One-shot lubrication system delivers metered oil to slideways and leadscrews
- Heavy duty 3 v-belt drive system delivers full power to the drive gear box and spindle
- The speed gear box is make up of hardened and ground gears running in an oil bath
- The table can be positioned by means of manual hand wheels or it is equipped with a gear driven power feed on the “X” axis / longitudinal travel
- Three speed settings plus rapid advance movement
- “Z” axis has motorized rapid elevating assist
- A vertical spindle head attachment can transform the horizontal machine to a vertical machine quickly
- The head can be disassembled and mounted in position easily via the machine mounted vertical head bracket
- Flood coolant system and chip tray

ELITE 9" x 49" Table Electronic Variable Speed Mill

Features:
- Mounted control box
- Emergency stop button
- Stainless steel Y-Axis way cover
- Head mounted electronic spindle brake
- Class 7 spindle bearings
- Pre-loaded thrust bearings
- Hardened and ground lead screws
- Double nut adjutment mechanism
- Certified Meehanite® castings
- Automatic lubrication every 30 minutes
- CSA/UL approved safety electronics
- 3 Year Warranty

Standard Equipment:
- Spindle safety guard
- Halogen machine lamp
- Dual locks on all surfaces
- Toolbox with tools
- Tolerance test sheet

10" x 50" Table Electronic Variable Speed Milling Machine

Features:

- Yaskawa compact AC inverter drive
- Inverter Duty, High Energy - High Efficiency Motors for lower utility costs, save up to 35%
- Centrally located controls for ease of operation
- Immediate response speed control (0-full speed in 4 sec.)
- Full range RPM selection.
- Electronic inverter controlled braking for reduced set-up time
- “Turcite-B” inserted guideways for extended machine life
- Complete electrics with low voltage controls for safer machine operation
- Fan cooled electrical enclosure
- Heavy “Meehanite” cast iron construction for excellent damping
- Huge hardened steel box ways on knee
- Built in coolant system
- One shot lubrication
- 1 Year Warranty on Parts & Labor, 6 Months on all Electrical

ACER 10" x 54" Table Boxway Electronic Variable Speed Milling Machines

Features:

- No variable speed belts means no slippage
- Vector type AC frequency inverter drive
- Square Boxways
- Electro/mechanical brake stops spindle immediately
- Table parallelism tolerance guaranteed within 0.0008″ every 20″
- Knee and ram movement guaranteed within 0.0008″ every 12″
- Class 7 precision spingle bearings - 3 pieces - run-out guaranteed to within 0.00015″
- Table surface and all ways on machine are hardened and ground to HRC-52 hardness
- Turcite B lining on saddle ways make X & Y movement smooth and easy
- Chrome plated X & Y leadscrews (HRC 60°) features a double nut backlash compensator
- True Meehanite casting
- Protective automotive paint
- Full one year warranty on all parts and service
- 220V Unit can operate on single phase power

ACER Electronic Variable Speed E Lathes With Constant Surface Speed & Newall DRO

- Constant Surface Speed - Provides an output that can be applied to an AC inverter spindle drive
- The system uses a DRO and the Precision Scale feedback to automatically control spindle RPM with the Highest Accuracy

Advantages of Constant Surface Speed:
- Optimum surface cutting speeds improving tool life
- Better surface finishes
- Includes a Digital Readout as Standard Equipment
- 1 Year Warranty Parts

Drill Press Guards

- Give full protection from quill to drill point by the smooth telescopic action of the guards
- They collapse as the drill penetrates the workpiece, returning to extended position when spindle is raised
- Complies with BS EN 292 Safety of Machinery guard guidlines
- Clear vision for safe operation
- Rapid adjustment for drill length
- Fast access for cutting tool changes

DAKE Heavy Duty Step Pulley Floor Model Drill Presses

Features:
- A locking handle hub with convenient dial-in adjustment and an easy-to-read scale for fast, accurate, and repeatable depth setting changes
- Massive cast head, machined column and sturdy cast base reduces vibration
- Morse taper spindle is standard as well as drill chucks with key
- CE safety electrical package features: push button on/off switch, emergency stop button, low voltage controls, thermal overload, interlock safety switch for belt cover, and adjustable Plexiglass chip and chuck guard
- 1 Year Warranty Parts
- Model TB-16 is a bench model

JET Floor Model Economy Drill Presses

354170

354169

Features:
- Rotating, ±45° tilting, crank-operated worktable
- A 1/2" diameter external positive depth stop
- Built-in work lamp on all models, bulb not included
- Morse taper spindles for versatility
- Drill chuck and key included
- All Models feature a versatile Step Pulley Drive
- 2 Year Warranty

PALMGREN Floor Model Step Pulley Drill Presses

- Constructed to provide a solid base for all your drilling operations, and offer a greater range of spindle speeds than any others in their class
- They have the weight and rigidity to maintain the built-in tight tolerances required for metalworking applications
- Fully enclosed spindle with spaced bearings for maximum spindle support and accurate drilling operations
- Maximum spindle run out of 0.0005"
- Extended quill/spindle travel ideal for deep hole applications
- LED readout for spindle speeds
- Quick change vertical depth stop for accurate, repeatable feed length
- Includes chuck with key and arbor
- Rack and pinion table raiser
- Table tilts 45 degrees right and left and rotates 360 degrees around the column
- Front mounted industrial paddle type power switch
- 3 Year Warranty

JET 17" & 22" Industrial Floor Model Drill Presses

Features:
- CSA Certified
- Spindle is supported by high quality ball bearings
- Hinged metal belt and pulley cover coupled with quick adjustment motor mount allows rapid changing of spindle speeds
- Large Hand Grips designed with the users comfort in mind
- Rotating, 45° tilting, crank-operated worktable with quick release clamp
- A 1/2" diameter external positive depth stop with three nut locking feature for quick adjustment
- Adjustable tension spindle return spring
- Drill chuck and key attach to the side of the drill press always within reach of the operator
- On/Off switch located on front of the drill press head
- Heavy duty construction Cast Iron table and base
- Table ground for accuracy
- 2 Year Warranty

Standard Equipment:
- LED Machine Lamp
- Ground Table
- Spindle Safety Guard
- Drill Chuck and Key

PRM 20" Variable Speed Drill Presses

Features:
- Offers built-in features found only in other higher priced machines
- Has rugged, heavy-duty cast iron construction with ground steel column
- Features variable speed two-speed motor to give an optimum of various spindle speeds
- Foward & reverse switch installed for tapping
- Wired 220V 3PH ONLY
- Model 20VSDTPF has mechanical power feed on the spindle with 4 feed rates of .004", .006", .009" & .012" IPR
- 1 Year parts warranty

Clausing 20" Variable Speed Drill Presses

MADE IN THE USA

Features:
- Superior performance for metalworking – Production rated 1-1/4" in cast iron, 7/8" in steel
- Infinitely variable speed countershaft drive
- All drill presses have a #3 Morse Taper spindle and 6-1/2" spindle travel
- Heavy-duty precision head...all bearing surfaces are precision bored simultaneously for exact alignment
- Eight ball bearings support drive and spindle
- Precision ground oil through tables...handle big workpieces easer
- 22" x 19" Table
- Shipping weight: 630 lbs.
- Proudly Made in the USA
- 1 Year Warranty

PALMGREN INC Variable Speed Floor Drill Presses

- With the Palmgren 20" variable speed drill press you can dial the best rpm for the tool and material while the job is running
- Simple hand wheel adjustment sets the speeds and immediate rpm reading appears on the front face of the machine
- The heavy duty cast iron construction forms a solid base for all your drilling operations with an oversized precision machined drill head, extended quill travel and a 4-1/2" column the Palmgren 20" variable speed drill
- Full bearing support with radial thrust and ball bearings
- LED Spindle speed readout
- Front mounted positive control depth stop
- Large precision ground t-slotted table with coolant trough
- Front or side operated rack and pinion table raiser
- Table rotates 360 degrees around the column
- 3 Year Warranty

DAKE Electronic Variable Speed Drill Presses

- Locking handle hub with convenient dial-in adjustment and an easy to read scale
- Large diameter sturdy spindle for rigid drilling has four bearing points for smooth operation
- Machined table and base surfaces with t-slots for mounting and fixturing
- Forward and reverse selector switch for tapping applications
- Model SB-250V automatically advances to preset depth, bottoms out, and returns automatically (Spindle Power Downfeed)
- CE safety electrical package features push button on/off switch, emergency stop button, low voltage controls, thermal overload, and interlock safety switch for belt cover
- Latest frequency inverter technology for easy speed changes and concentrated torque

Ellis Electronic Variable Speed Drilling & Tapping Machine

Features:

- 2 HP motor with A.C. inverter
- Electronic Infinitely Variable Speed
- Machine can tap 3/4" holes (N.C.)
- High torque at all speeds even in forward or reverse
- Continuous speed while in operation
- Instantaneous reversing for tapping
- Can tap right or left hand threads
- Variable speed from 0-1200 RPM
- Ball bearing chuck, drill bit and machine vise shown on machines are optional
- Three Machines in One – Tapping Machine, Drilling Machine, Reaming Machine
- Machines comes standard with power downfeed on spindle
- 1 Year Warranty

IBARMIA Geared Drive Heavy Duty Industrial Drilling & Tapping Machines

- TL Model is designed for easy operation with Manual Feed
- Models A and AX were designed with a mechanical clutch for precise automatic feed control
- All are RS Models and are equipped with automatic feed reversing system for tapping.
- 1 Year Warranty

Standard Equipment:
- Depth Scale and Adjustable Depth Stop, Automatic Tool Ejector, Emergency Stop, Drill Guard with Microswitch
- Models “A” and “AX” also include a Coolant System and Work Light

20" Geared Head Drilling & Tapping Machines

Features:
- Heavy-duty design allows a variety of precision drilling and tapping applications
- Calibrated fine down feed built-in
- Built-in spindle lock
- Head tilts left or right
- Large production table and T-slotted base
- Drill chuck arbor
- Draw bar
- Model GHD-20 Drill Press only (No Option Content)
- Model GHD-20 Drill Press only comes with a Automatic Power Down Feed
- Model GHD-20T comes standard with a Tapping Switch
- Model GHD-20PFT come standard with Tapping Switch and an Automatic Power Feed
- 2 Year Warranty

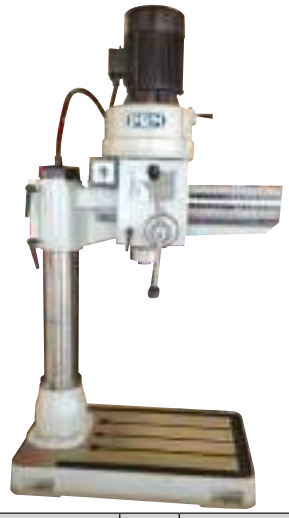
PRM 15" Arm Mini Radial Drilling Machine

- Step pulley belt change head has 10 speed changes for smaller/larger jobs
- Can handle many functions where a standard drill press just isn't large enough
- Forward and reversing is standard
- Machine is equipped with a two speed motor, 3/4 and 1-1/2 HP and is wired for 230 voltage, 3 phase only
- 1 Year parts warranty



Model No.	Drilling Cap. Steel (in.)	Drilling Cap. Cast Iron (in.)	Tapping Cap. Steel (in.)	Tapping Cap. Cast Iron (in.)	Column Dia. (in.)	Travel of Head (in.)	Travel of Arm (in.)	Table Dim. (in.)	Spindle Taper	Quill Travel (in.)	Spindle Speeds (RPM)	Motor	Weight	Order No.	Price

Clausing 3' Arm Heavy Duty, Large Capacity Radial Drilling Machines

Features & Standard Equipment:

- Limit switch
- High speed gears are made of Nickel-Chrome Steel and are heat-treated and ground for durability.
- Powerful 2 Hp spindle drive motor for heavy-duty cutting
- Extra auxiliary dial for spindle feed depth indication, allows review of spindle feed depth, .0394" to 8.677".
- Special spindle balance mechanism, superior to traditional balance mechanism and extends Balance Spring life.
- Coolant System
- Low volt and overload protection
- Tool kit and manuals

PRM Radial Drilling Machines

Features:
- High speed nickel chrome steel gears mounted on splined steel shafts turning in anti-friction bearings
- Columns are designed for maximum rigidity and minimum deflection while machining
- Arm is ribbed to avoid stress from twisting
- Carbon steel spindle is spline driven and loaded with large diameter taper roller bearings for maximum accuracy
- Coolant tank is incorporated into the base casting
- 1 Year Warranty Parts

Standard Equipment:
- 4MT spindle taper, heavy duty non-tilting large box table, coolant system built into base, work light, 3-phase heavy duty motor and electric controls with overload protection

JET 3' Arm Radial Drill Press

Features:
- Power train gears and spline shafts are made of the finest quality, heat treated and ground nickel-chrome steel, giving extra strength and smoothness to high torque loads
- Spindle is made of finest case hardened steel for extra strength and wear
- Spindle is supported by double row taper roller and thrust ball bearings at the nose, with thrust and radial axis bearings at the top
- Built to withstand exceptionally heavy drilling and boring loads to insure maximum accuracy
- 2 Year Warranty

Standard Equipment:
- Built in work light
- Coolant Pump
- Tool Kit
- Box Table

JET 4' Arm Radial Drill Presses

Features:
- Power train gears and spline shafts are made of the finest quality, heat treated and ground nickel-chrome steel, giving extra strength and smoothness to high torque loads
- Spindle is made of finest case hardened steel for extra strenght and wear
- Spindle is supported by double row taper roller and thrust ball bearings at the nose, with thrust and radial axis bearings at the top
- Built to withstand exceptionally heavy drilling and boring loads to insure maximum accuracy
- Push button controls are all reduced to 110V
- Electrical circuits are located in the built in control box at the rear of arm helps keep controls dust and humidity free as well as easily accessible for maintenance
- Entire frame is made of Meehanite® and high tensile strength cast iron
- 2 Year Warranty

Standard Equipment:
- Built in work light
- Coolant Pump
- Tool Kit
- Box Table

PRM Vertical Bandsaws

Features:

- Light to heavy duty vertical bandsaws for most applications
- Variable speed
- V-Type saw guides & inserts
- Blade welder with integrated annealing unit
- Blade shear & grinder
- Chip blower & jet
- Low voltage worklight
- 15° Four-way tilt table
- Low voltage controls
- One blade & blade guard
- Tool box
- Complete instruction & parts manual
- KB45 and KV50 have blade speed tachometer and blade tension indicator
- Completely guarded
- Magnetic controls with low voltage transformer
- 1 Year Warranty Parts

DAKE Vertical Bandsaws

New!

Features:

- Digital tachometer
- Blade speed / pitch selector guide
- Work Light
- Bi-Metal Blade
- Blade tension indicator
- Blade welder / grinder / shear
- Variable Speeds with 82 – 3,950 feet per minute speed range
- Chip blower
- Blade brush
- Heavy cast table with chip clearance grooves
- Rip Fence
- Four-way tilt table
- Low voltage controls, main power lock out switch and door limit switches
- Heavy-duty quiet running two speed gear box

Vertical Contour Bandsaws

Model VCS-1000 Features:

- Cast aluminum work table
- Crowned and rubber capped wheels
- Inverter-controlled blade speed
- Fully adjustable tungsten carbide blade guides
- Blade tensioning wheel built-in
- Work light
- Rip fence
- Main table tilts 15° L/R
- +/- 10° fore/aft table tile
- Secondary table - stationary
- Chip blower
- 2 Year Warranty Parts, 1 Year Warranty Labor

Model VCS-600 Features:

- Fully adjustable tungsten carbide blade guides (included) covers all blade sizes
- Cast aluminum work table
- Rubber capped wheels
- Inverter-controlled blade speed
- Work light
- Post elevating hand wheel
- Rip fense
- Table tilts 15° L/R
- +/- 10° fore/aft table tilt
- Chip blower
- Blade tensioning wheel built-in

Model VCS-600H Features:

- Cast aluminum work table
- Cast wheels are rubber capped
- Inverter-controlled blade speed
- Fully adjustable tungsten carbide blade guides
- Blade tensioning wheel built-in
- Band break switch
- Work light
- Post elevating hand wheel
- Rip fence
- Table tilts 15° L/R
- Two tee slots in tabletop
- Hydraulic table feed rate control
- Band mist lubricator

Wellsaw 20" Vertical Metal Cutting Bandsaw

Features:

- Extra wide range of the dial in variable speed system allows cutting of various materials (wood, plastic, aluminium, composite, ferrous & non-ferrous metals)
- Special blade guides rotate 90° to allow sawing from the side of the machine -can make cuts of unlimited length
- Specify Voltage - Available in single or three phase
- Blade Guides- six sealed roller bearings
- Available with 24" under the guide
- Available with blade guides for 1" blade
- 2 Year Warranty

MADE IN THE USA

Standard Equipment:

- Flexible Machine Arm Light
- Magnetic Starter with 115 Volt Circuit
- Blade Tension Indicator
- Two-Speed Transmission
- Blade Speed Indicator
- Heavy-Duty Roller Guides
- 1/2" General Purpose Blade
- Chip Blower

Zip Miter Horizontal Bandsaws

New!

Features:

- Swiveling head while the base remains stationary
- This allows the stock to remain same position while making accurate crosscuts and miter
- Built to last and deliver precision results
- Mitering head swivels to cut any angle 0° - 60° while the work piece remains secured
- Adjustable blade guides that utilizes cam follower bearings mounted on eccentric shafts
- Convenient control panel with overload protection
- Heavy-duty cast iron saw head and sturdy base
- Fully adjustable hydraulic downfeed system
- Large hand wheel and built-in gauge provides easy blade tensioning
- Quick positioning vise reduces set-up time
- Coolant system
- Adjustable material stop
- 3/4" Bi-Metal blade
- 2 Year Warranty

Mitering Horizontal Bandsaws

Model MH-270M Features:

- Built-in integral coolant system
- Blade cleaning chip brush
- Stepless variable blade speed
- Adjustable material stopper
- 60° swivel frame design
- Hardened worm gear
- Carbide insert and bearing to enhance blade support
- Hydraulic feed control with on/off valve
- Heavy duty quick clamp/release vise
- AutoCut mode with large feed rate control valve
- Quick Approach mode with release trigger

Model MH-300DM Features:

- Hydraulic cylinder plus precision ground hinge support
- Swivel frame design
- Built-in integral coolant system
- Direct drive gearbox
- 1.6 HP motor
- Carbide blade guides with roller bearings
- Two additional guides enhance blade support
- Cast-iron rigid guide arms
- Blade tensioning system fitted with indicator gauge
- Blade brush to remove chips
- Heavy duty quick clamp/release vise
- Adjustable down feed rate control with on/off valve

Model MH-350DM Features:

- Hydraulic cylinder plus precision ground hinge support
- Swivel frame design
- Large rugged base
- 1.5 HP motor
- Direct drive type gearbox
- Carbide blade guides with roller bearings
- Two additional guides
- Rigid guide arms
- Blade tensioning system fitted with indicator gage
- Integral coolant system
- Blade brush to remove chips from blade gullet
- Down feed rate control with on/off valve
- Quick clamping/releasing vise
- 2 Year Warranty Parts, 1 Year Warranty Labor

JET 5" x 8" Horizontal Bandsaws

Features:

- Adjustable guides and hydraulic feed, steel worm gear and bronze drive gear, and auto shutoff at end of the cut
- The built-in handle and wheels makes relocation within your workspace quick and easy
- For added safety, the J-3230 follows strict guidelines and electrical requirements to be certified by CSA Group
- Blade drive is a steel, heat treated worm driving a bronze worm gear in an oil bath
- Adjustable blade guides with side eccentric shaft with ball bearings with rear-ball bearings
- Fully adjustable hydraulic downfeed system
- Heavy Duty 14-gauge steel stand with shelf has been redesigned for stability, rigidity and ease of use
- Wheels and handle for easy movement
- Automatic shut-off after cut
- Coolant system
- Adjustable material stop
- 1/2" Carbon Steel Blade
- 2 Year Warranty

Wet Cutting Horizontal Bandsaw

Features:

- 4 Speed step step pulley with worm gear speed reducer, worm shaft is hardened and ground
- Totally enclosed transmission
- Heavy-duty hydraulic cylinder with precision ground hinge support
- Pan shaped base with built-in coolant & hydraulic system
- Cast iron bed
- Carbide blade guides with roller bearings
- Two additional bearings to support blade from the top
- Recirculating coolant system with application through both guides
- Valve controlled hydraulic cylinder controls feed and cutting rate and can be adjusted for different types and sizes of material
- Adjustable stock stop
- Simplified control switches mounted on saw head
- Cast iron quick acting 0-45° vise with manual leadscrew clamping system
- Tool box, leveling pads, and an additional wire brush
- 2 Year Limited Warranty

8" x 13" Horizontal Bandsaw

Features:

- Designed to deliver accurate cuts without undue blade fatigue, this JET saw works longer and stronger so productivity never suffers
- For added safety, the J-7015 follows strict guidelines and electrical requirements to be certified by CSA Group
- Dual voltage electrics (115/230V) with overload and low voltage protection
- Heavy-duty transmission utilizes hardened and ground gears operating in an oil bath
- Fully adjustable hydraulic downfeed system
- Carbide blade guides feature parallel double-row ball bearing support
- Longer blade wheel base reduces blade fatigue and increases blade life
- Heavy-duty, rigid steel and cast iron construction of the head and base provides full blade support, eliminating vibration and deflection
- Conveniently located control panel and easily accessible coolant system
- Easy-to-use belt drive tensioner does not require tools for blade speed changes or belt replacement
- Quick-positioning vise with fully adjustable jaws, swivels to 45°
- 2 Year Warranty

8" x 13" Horizontal Bandsaw

Features:
- Heavy-duty construction reduces vibration and deflection
- Large handwheel with blade tensioning guide accurately measures blade pressure to prevent breakage
- Automatic blade shut-off switch stops the sawing process
- Hydraulic downfeed control is easily adjusted enabling feed rates to evolve with the various types of materials
- To reduce user fatigue and increase safety of the worker we increased the saw bed height to 32”
- Following strict guidelines, CSA/UL electrics have been added for increased safety

Standard Equipment:
- Coolant System
- Quick positioning vise
- Adjustable material stop
- 1” 4/6 VT Bi-Metal blade

Wellsaw 9-1/2″ x 11" Portable Horizontal-Vertical Bandsaw

Features:
- 3 Speed v-belt pulley drive
- Adjustable pressure gravity feed
- Converts from horizontal to vertical work
- Available in dry or wet-cutting models
- Automatic shut-off
- Thermal overload motor protection
- 2 Year Warranty

Standard Equipment:
- Stock stop assembly, Quick acting adjustable vise, Vertical work table, Ball bearing blade guides and Mobile wheel kit

DAKE 9" x 12" Intermediate Duty Horizonal Bandsaw

Features:
- Quick release valve
- Hydraulic controlled, gravity head feed with combination head speed flow control/ head lock valve
- Horizontally mounted guide arms for more rigidity and straightest cuts
- Cast one piece head frame
- Cast lip and grooved designed wheels
- Low voltage controls with thermo overload protection
- V-Belt and step pulleys for fast speed changes
- Mechanical blade tensioning
- Self contained coolant system
- Combination Roller and Carbide Guides
- 1 Year Warranty

Manual Pivot Bandsaw

Model MH-1016JA Features:

- Presicision ground hinge guides the saw frame through out cutting cycle
- Quick set up vise enables miter cutting at desired angles
- Hydraulic shuttle vise assembly
- Built-in coolant & hydraulic systems
- Carbide blade guides reduce wear on blade guides and blade
- Rigid guide arms on a dovetail slide greatly reduces vibration, achieving a better cutting result
- Integral coolant system
- Down feed rate control
- Cast iron vises
- 2 Year Warranty Parts, 1 Year Warranty Labor

ELITE 9" x 16" Horizontal Bandsaw

Features:

- ELITE swing away panel relocates saw controls to a single location, offering finger-tip operation of most major saw functions
- Automatic blade breakage sensor detects accidental breakage and interrupts the power
- Heavy-duty contruction reduces vibration and deflection
- Blade is fully guarded for operator safety
- Built-in, slef propelled blade brush prevents chip buil up in blade guides
- Automatic balde shut-off switch stops the sawing process
- Hydraulic downfeed control is easily adjusted enabling feed rates to evolve with the various types of materials
- Variable speed drivetrain allows operator to fine tune the blade speed fast and easy
- To reduce user fatigue and increase safety of the American worker we increased the saw bed height to 30”
- Following strict guidlines, CSA/UL electric have been added for increased safety

Cosen Manual Swivel Head Mitering Horizontal Bandsaw

Model MH-460M Features:

- Heavy duty hydraulic cylinder plus precsion ground hinge support and guide
- Specially designed heavy-duty cast iron swivel center features straight and miter cuts from 90 to 30 degrees
- Large rugged base with build-in coolant & hydraulic systems
- 2 HP motor, heavy-duty reducer, and variable step drive assembly
- 4-speed transmission is equipped with the best worm gear speed reducer
- Carbide blade guides with roller bearings
- The rigid guide arms are mounted on an extra wide precision ground dovetail slide
- Two additional guides located on a central axis
- Integral coolant system
- Blade brush to remove ships from blade gullet
- Down feed rate & cutting pressure control
- Cast iron vises with replaceable extension plate
- Secure clamping via a dependable manual lead screw system with anti-slip hand wheel
- 2 Year Warranty Parts, 1 Year Warranty Labor

10" x 16" Mitering Wet Cutting Variable Speed Horizontal Bandsaws

414472

Features:
- Variable speed drive systems allows the operator to fine tune the blade speed fast and easily
- Exclusive 6 contact point blade guide assemblies
- Exclusive swivel control panel
- One piece wheel cover
- Heavy duty rugged transmission utilizes hardened and ground gears operating in an oil bath
- Combined with the side bearings and carbide pads, the back of the blade rides on two load bearings mounted on a pivot shaft so both bearings share the load equally
- Mitering head - the workpiece remains fixed while the head swivels to cut any angle 0° - 45°
- 2 Year Warranty on Mechanics

- Saw head swivels 60º in either direction
- Cuts 6" rounds or square at 60°
- Variable hydraulic cylinder controls saw head feedrate
- Automatic shut-off at end of cut
- Available in wet (HW1212) or dry (HM1212) cutting models
- Adjustable cast iron guide arms
- 1 Year Limited Warranty

MADE IN THE USA

Standard Equipment Includes:
- Eight gallon coolant tank with adjustable fluid flow control on Model No. HW-1212) only, quick acting adjustable vise, carbide guide inserts, blade cleaning brush and safety magnetic starter switch

Wellsaw 13" x 16" Swivel Head Wet Cutting Miter Cutting Bandsaw

Features:
- Saw head swivels to make miter cuts from 0° to 60°
- Cuts 8" round at 60°
- No need to swing stock or adjust vise jaws
- Turntable pivots on precision ball bearings
- Rite Tensioning® blade tensioning
- Infinitely variable speed drive
- Gravity hydraulic variable feedrate
- Available in single phase
- 2 Year Warranty

MADE IN THE USA

Standard Equipment:
- 5' x 18" Infeed roller conveyor, Worklight included (not shown), Combination carbide guides with rollers, 8 Gallon wet cutting system, Stock stop assembly, Powered blade brush and Magnetic starter with 115 Volt controls

PRM 13" x 19" Horizontal Miter Bandsaw

Features:
- Conveniently located operator control panel
- Variable speed drive
- Top load blade
- Adjustable blade guides with 6 contact points using cam follower bearings and carbide pads
- Counter balanced hydraulic feed system
- Chip blade brush
- Coolant system with adjustable flow through the guides
- Adjustable work stop
- Miters 60° to the left and 45° to the right
- Rapid acting vise

10" Dual Miter Saws

Features:

- Heavy duty construction reduces vibration and deflection
- Built in, self propelled blade brush prevents chip build up in blade guides
- Blade tension gauge helps to ensure the blade is in the correct cutting position
- Magnetic starter for low voltage and lost phase protection
- Automatic blade breakage sensor detects accidental breakage and interrupts the power
- Power switch with safety key prevents accidental start up
- CSA/CUS: Following strict guidelines and electrical requirements, this JET saw is CSA/CUS certified
- Blade is fully guarded for operator safety
- Automatic shut off switch stops the sawing process
- 2 Year Warranty

10" x 18" Dual Mitering Horizontal Bandaws

Features:

- Swing away panel relocates saw controls to a single location
- Semi-Automatic bow raises after cut to predetermined height
- Automatic blade breakage sensor
- Blade is fully guarded for operator safety
- Built-in, self propelled blade brush
- Automatic blade shut off switch
- Hyrdaulic downfeed control
- Variable speed drivetrain
- Saw bed height is 32”
- Integrated pressurized wash hose
- 3 Year Warranty

Standard Equipment:

- Coolant system
- Quick positioning vise for EHB-1018VM
- Hyrdaulic vise for rapid clamping of materials on EHB-1018VMH
- Adjustable material stop
- 1” 4/6VT Bi-Metal blade

ROLL-IN SAW 14" x 18" Miter-Cutting Horizontal Bandsaw

Features:
- Horizontal saw head pivots 45° right and 45° left
- Quick acting vise can be mounted on either side to accommodate material to be cut
- Variable hydraulic cylinder to control saw head feedrate
- Table workload capacity of 3500 lbs.
- Automatic shutoff at the end of cut
- Adjustable cast iron guide arms
- Easily accessible control box
- Outstanding quality since 1940
- 1 Year Limited Warranty

Standard Equipment:
- Carbide guide inserts, 4 roller infeed material loading conveyor, 4 roller outfeed material unloading conveyor, 8 Gallon capacity flood coolant system, blade cleaning brush and safety magnetic starter

Semi-Automatic Swivel Head Mitering Horizontal Bandsaw

Model SH-460M Features:

- Precision ground hinge guide saw frame through cutting cycle
- Heavy-duty cast iron swivel center features straight and miter cuts from 90 to 30 degrees
- Built-in coolant & hydraulic systems
- Carbide blade guides
- Rigid guide arms on an dovetail slide reduces vibration, achieving a better cutting result
- Downfeed rate & cutting pressure control
- Cast iron vises
- 2 Year Warranty Parts, 1 Year Warranty Labor

Semi-Automatic Horizontal Pivot Bandsaw

Model SH-250R Features:

- Smooth and consistent downfeed accomplished via universal ball joint support
- Gearbox designed to accept high lateral pressure (no thermal distortion)
- Infinitely variable blade speed
- Carbide blade guides
- Rigid guide arms on an dovetail slide allows easy adjustment of guide arms
- Integral coolant system
- Downfeed rate & cutting pressure control
- Front and rear hardened wear strips
- 2 Year Warranty Parts, 1 Year Warranty Labor

Semi-Automatic Mitering Horizontal Pivot Bandsaw

Model SH-500M Features:

- Swivel sawhead allows cutting at any angle between 0° (straight cut) and 60° (miter cut)
- Hard stops at 0°, 45°, and 60° for quick angle set up
- Integral coolant system
- Blade drive equipped with variable pully drive
- Infinitely variable blade speed system - 3 HP drive
- Carbide guides
- Synchronized blade brush
- Work height selector
- Built-in adjustable material stop
- Full stroke machine vise
- Optional Micro Droplet Applicator replaces traditional flood coolant system
- 2 Year Warranty Parts, 1 Year Warranty Labor

Wellsaw® 1316S-SA Semi-Automatic Bandsaw

Features:

- Provides the strength and precision of our popular swivel head saw with the convenience of true semiautomatic operation
- The factory programed PLC manages the saw head and bed vise improving both safety and productivity
- True swivel head
- Cuts from 0° to 60°
- Hydraulic feed control
- Flood coolant system, worklight and 5 ft. infeed conveyor are all standard
- Variable Bandspeed
- Full cycle, automatic control of the saw frame and vise jaw
- Full function control panel for manual control of all functions
- Positive feed control for increased performance on oversized pieces
- Available in single phase
- 5 Ft. infeed conveyor not shown
- 2 Year Warranty

Wellsaw® 1318-SA Semi-Automatic Bandsaw

- PLC Controlled, full cycle semi-automatic operation
- Variable hydraulic feed rate control
- Spring loaded carbide guides with rollers
- Combination reduction gearbox and perimeter ring gear blade drive
- Infinitely variable blade speeds
- Rite-Tension® blade tensioning device
- Wet cuttying system
- 110 Volts at controls
- Overload and undervoltage protection
- Quick acting vise/air powered
- Adjustable stock stop
- Auto shut-off at end of cut
- OSHA blade guarding
- Shown with optional infeed conveyor
- 2 Year Warranty

High-Speed, Heavy Duty, Fully-Automatic Horizontal Production Bandsaws

Features:

- Automatic hydraulic shuttle barfeed
- Hydraulic blade tensioning
- Infinitely variable saw blade speeds through an A/C inverter drive & worm gear transmission with an electric tachometer
- Digital cut length settings and piece counter, on PA10/3
- 0 to 300 lbs. positive hydraulic infinitely variable feed force pressure
- Motion detector which shuts down in the event of a blade failure
- Out of stock switch and work light
- Combination roller bearing and carbide blade guides chip auger
- Fully stroking hydraulic split vise jaws ideal for bundle cutting
- EPC control has touch pad length input for 9 jobs
- 5 Gallons of coolant
- Specify 230 or 460 voltage - Other voltages are optional
- 2 Year Warranty Parts & Labor

Fully Automated Bandsaws

Automatic high-performance bandsawing machine for serial cutting of solids, tubes and profiles in material qualities which are easy to difficult to cut. The standard precise linear guides (re-circulating ball units with grease lubricated guide carriage) guarantee maximum life. The standard SmartControl offers the optimum operation of the machine. Easy and clearly arranged job entry via job wizard. After making the desired number of cuts, the machine shuts off automatically. By reducing set-up times to a minimum, maximum cutting performances are achieved in automatic mode. The precise drive via ball bearing spindle in material feed guarantees an accurate material length positioning. Frequency controlled spur gear driving with overload monitoring and clamping pressure monitoring for blade clamping and both vices belong to the standard equipment for working processes regarding cutting of individual pieces, smaller and average lot sizes and large series. An infinitely variable electromechanic saw feed with servomotor and ball bearing spindle offers the best conditions for an efficient, sensitive and tool-saving cutting operation.

WINA33

Features:

- Customised to the specific application using a modular system design
- Quick motion using servo drive and ball screw spindle for the material feed and the linear guided saw frame
- Automatic band guide arm adjustment
- Quick and easy programming via colour touch screen
- SmartControl to ensure high bandsaw blade lifetimes
- Incremental feed for cutting batches of short pieces

Mark II Bandsaws

Features:

- Miters 45° left or right
- Does not have a power tilt
- Quick-action vise
- Maximum opening: 18”
- Feed range: 0-140 lbs.
- Automatic stops
- Work light
- Coolant system: 21 gallon capacity
- Cast iron table & cartridge
- Flushing hose & power chip brush
- Carbide guide system
- Blade tension indicator
- Electrical equipment conforms to NFPA-79
- Welded edge saw blade
- 5 Gallons of coolant
- 2 Year Parts & Labor Warranty

AMADA MARVEL, INC.

Mark III Electronic Variable Speed Bandsaws

Features:

- EVS 5HP vector drive
- A/C inverter motor
- Miters 60° left & right
- Quick-action vise: maximum opening 18”
- Automatic stops
- Work light
- Coolant system: 21 gallon capacity
- Cast iron table & cartridge
- Flushing hose & power chip brush
- Carbide guide system
- Blade tension indicator
- Electrical equipment conforms to NFPA-79
- Welded edge saw blade
- 5 Gallons of coolant
- Saw blade: 1-1/4” wide
- Feed range: 0 to 250 lbs.
- Automatic column return and the column can be adjusted to either straight or 3° forward canted approach angle for increased cutting efficiency of structural materials
- Models 81112, 81112PT & 81114PT include power tilt head
- 2 Year Parts & Labor Warranty

W.F. WELLS 9" x 18" Semi-Automatic Double Column Type Horizontal Cut-Off Bandsaws

Standard Equipment:

- Double column type Semi-Automatic up & down
- Carbide guides with back-up
- Ball bearings
- Full coolant system
- Fully hydraulic controlled saw head up and down rate decent
- Uniform feed rate and cutting pressure
- Quick and easy blade change
- Manually controlled blade tension
- Conforms to NFPA-79 electrics standards
- Also available in single phase
- 1 Year Warranty
- Specify Voltage

W.F. WELLS Horizontal CNC Automatic Bandsaws

Features:

- Shuttle Type Barfeed & Built-In Flood Coolant Systems
- Fully Automatic CNC Barfeed
- Digital Membrane Screen Controls (Models F161A & W914A)
- Color Touch Screen Controls (Models F1620A & F1620HA)
- 99 + Job Selection (Models F161A & W914A)
- 500 + Job Selection (Model F1620HA)
- 999 + Job Selection (Model F1620A)
- Machine Diagnostics & Program Prompting
- Automatic Kerf Compensation
- Out-Of-Stock Shut-Down (Models F161A & W914A)
- Automatic end of cut shutdown (Models F1620A & F1620HA)
- Manual Blade Tension (Models F161A & W914A)
- Digital Blade speed indicator (Models F1620A & F1620HA)
- Hydraulic blade tension (Models F1620A & F1620HA)
- Variable Vise Pressure
- Blade Break/Stall Switch
- NFPA 79 Electrics
- Electronic Door Interlocks
- Specify Voltage
- 1 Year Warranty

KASTO Semi-Automatic Vertical Circular Saws

Semi-automatic vertical circular saw with two cutting speeds and infinitely adjustable cutting feed for the universal use at the machine shops as well as for production. The remarkable features of this machine are the precise dovetail guide, the rigid gear and the large cutting range. The easy rotating saw head allows on both sides miter cutting from 45°(-) left to 60° (+) right. The pneumatic material clamping, the infinitely adjustable cutting feed with height limitation allow a semi-automatically operating cycle, which will be released by a CE-conforming two-hand safety operation. The pneumatic clamping device with counter clamping device for safe bar stock clamping for almost burr-free cut, chip knocker wheel, recirculating coolant system, chip drawer, material support roller and metal saw blade HSS DMO 5 steam treated Ø 12.40 in. (315 mm) are standard equipment.

Features:
- Clamping vice with counter clamping vice for burr-free cuts
- Coolant system
- Material support roller
- Chip knocker wheel and chip drawer
- Infinitely adjustable saw feed with height limitation

KASTO Manual Cold Circular Saws

Manual cold circular saw with two cutting speeds for the universal use in workshops. The easy handling facilitates miter cuts on both sides within 45°.The clamping vice with counter clamping device for safe bar stock clamping for almost burr-free cut, metal saw blade HSS DMO 5 steam treated Ø 10.83 in. (275 mm) and also the re-circulating coolant system are standard equipment.

Features:
- Double clamping vice with quick clamping lever for optimal material clamping
- Length measuring stop and retractable material support arm with roller
- Coolant system
- Saw blade
- Two cutting speeds

PALMGREN Cold Saws

New!

- Ideal for very precise, burr free cuts in low and high carbon steels and medium gauge tubes and profiles
- The pivot head design allows for fast, accurate miter cuts
- Advanced gear box design utilizing hardened and ground gears with a high quality bronze worm gear running in an oil bath
- Built in coolant system lubricates the blade for smooth mill cut finish
- A centrally tensioning anti-burr vises securely clamps the work piece on both sides of the blade with equal clamping force and holds the work piece in-between 4 jaw faces
- The adjustment of the saw head for miter cutting is fast and easy with the saw head pivoting both to the right and left of center
- The 9683130 bench model can use either a 9”/225mm or 10” /250mm blade
- The 9683131 is a floor model with a compact heavy duty steel base with lockable door and shelf
- It is equipped with a built-in clutch to protect the gear box and blade from breakage
- 3 Year Warranty

JET Ferrous Manual Cold Saws

Features:
- Spring loaded whole hand trigger starts or stops the sawing process
- Two-piece cast iron blade guard system permits quick and easy blade changes without removing the guards
- Quick clamping cam-action vise with adjustable gib and material support bar
- Hardened and ground direct drive worm shaft and bronze worm wheel transmits maximum torque to the saw blade
- Blade drive reduction gearbox operates in an oil bath for increaded durability
- Heavy-Duty cast iron frame base with easy access storage
- Flood Coolant system with a 1-1/3 Gallon coolant reservoir and pump with flow control system extends blade life
- Quick tension and release mitering capabilities with stops at 45° right, 45° left
- Fully adjustable material depth stop for sawing repeatability and increased production
- 2 Year Warranty

Scotchman Slow Speed Cold Saws for Cutting Ferrous Materials

Features:
- **11" Model Features:** Two cutting speeds (30 & 60 S.F.P.M.) and (1) 10-3/4" HSS blade
- **14" Model Features:** Two cutting speeds (22 & 44 S.F.P.M.) and (1) 12-1/2" HSS blade
- High speed for non-ferrous material
- Single Phase, Single Speed Saws are also available in all models - Call for Details
- PK Model denotes Air Operated Clamp for material vise
- 3 Year Warranty

Standard Equipment:
- Double self-centering vise with miter capabilities - 45° left and 45° to the right, (7) gallon coolant system, (1) gallon coolant, with chip drawer and Hand operated trigger switch

KALAMAZOO Industries Inc. Miter Abrasive Cut-Off Saws

Model KM10 10” Miter Saw Features:
- Bench Model Only
- 5/8” Arbor Hole
- Angles from 0° to 45°– Either way
- Positive index holes–Up and down stops
- Two Cam-Lock vises–Lever- lock for table
- Does not include 10” Abrasive Wheel
- Model 12M Stand fits KM10 Saw
- 1 Year Warranty

Model KM16-18 16” – 18” Miter Saw Features:
- 1” Arbor Hole
- Miters either direction 45°
- Two cam vises
- Low voltage manual starter. DRY MODEL ONLY.
- Does not include 16” or 18” Abrasive Wheel
- 1 Year Warranty

Model KM14 14” Miter Saw Features:
- 1” Arbor Hole
- Angles 0° to 45° – either way
- Front lever lock
- Heavy-duty stand
- Specify voltage
- Standard Abrasive Blade Cut-off Saw
- Does not include 14” Abrasive Wheel
- 1 Year Warranty

MADE IN THE USA

Model KM 20-22 20” – 22” Miter Saw Features:
- Angles 0° – 45° both ways
- 1” Arbor Hole
- Rugged Steel Base
- Air operated chain vise
- Does not include 20” or 22” Abrasive Wheel
- 1 Year Warranty

- All 16 gauge and up brakes feature a removeable apron insert permitting 1/4-inch reverse bends in lighter materials
- Upperleaf and nose bar have a wide range of adjustment for different material thickness of radii.
- Standard equipment includes an apron stop for repeat bends, ductile steel clamp handles and counterweights
- The 22 gauge brakes are a lighter version brake better suited for contractors and remote job sites
- Universal brakes have removeable case hardened fingers for box and pan bending
- Model PK50HBU4816S includes stand
- All 48" Brakes Listed are Bench Top Models
- Optional Steel Stand (Order Number PK5048S)
- 3 Year Warranty

NATIONAL Universal Box & Pan Brakes

Features:

- Precise bed and beam alignment
- Cast iron counterweights
- Stop rods for repeat bends
- Precision bearings on apron
- Heavy duty truss rods and brakes
- Streamlined design
- Suitable for many types of metal forming operations
- All body sections are steel welded
- Model U4816 is a Bench Model - Optional Stand is available
- 3 Year Warranty

JET Floor Box and Pan Brakes

Features:

- All body sections are welded steel plate with heavy truss rods and braces
- Both the bed and apron are bored in line
- Soft grips on top of counter weight bar
- Tool less angle stop
- Soft touch handle grips
- With all fingers installed it can be used as a full-length nose bar, turning the machine into a straight bending brake
- Repeat bends are easy with a quick turn of the stop collar on the stop rod
- Counter weights can be moved up or down
- 2 Year Warranty

JET 52" Hydraulic Shears

Features:
- Delivers the strength and accuracy your shop demands in a rugged, steel framed hydraulic shear
- The low angle blade design ensures smooth cuts along the precision-aligned bed and beam
- Heavy-duty steel construction eliminates deflection across the blade span
- Hand-wheel controlled back gauge for quick and easy depth adjustments
- Easy to use satellite foot controls with emergency stop button
- Precise bed and beam accuracy assures working accuracy
- Low cutting angle to cut narrow strips without twisting
- 14 gauge maximum capacity for mild-steel
- 10 – 12 gauge maximum capacity for soft alloys
- 2 Year Warranty

JET 50" & 60" Power Slip Rolls

- Perfect tool for sheet metal forming in HVAC and FAB-shops
- Roll drive is controlled by foot pedal for immediate forward and reverse action
- Rolls are made of hardened polished high-carbon steel
- Forming roll has attached position scale for equal pressure adjustment
- Heavy duty cast iron frame and enclosed base insure precise sheet metal rolling
- Easy to setup and operate
- Convenient foot-control assembly with emergency-button
- Weight and rigidity; scale and precision; strength and simplicity define exceptional comfort and ease of operation
- All electrical and rotating parts are designed for safety and ease of use
- Safety Brake
- Large handwheels for easy adjustment
- 2 Year Warranty

PALMGREN 6" x 12" Manual Bench Surface Grinder

Features:
- Meehanite cast iron construction
- Precision steel balls produce extremely smooth operation of table along the ways
- Hand scraped ways
- Spindle and motor are a direct drive design and are dynamically balanced minimum vibration
- Swarf guard
- Large easy to read dials
- Spiral bevel gear for easy vertical movement of the spindle head
- JB559670109 Steel Floor Stand (Not Included)
- 3 Year Warranty

PRM 6" x 18" Surface Grinder

Features:
- Fuselage base with new box design and reinforcing rib, reinforced the rigid structure of the machine, to improve the stability of the machine
- Scientific design vacuuming, cleaning the mouth angle of inclination of 45 degrees, and can be adjusted up or down to ensure optimum suction power
- Imported P4 high precision spindle
- Imported high precision bearing
- Direct casting dust, dust-tight design is easily deformable plasticdust and other can not match. Dust is directly related to the merits of precision machine tools and machine

KENT USA 6" x 18" Hand Feed Surface Grinder

Features:
- Elevated H-Frame column design
- 21" spindle to table clearance under the wheel
- High precision flange-mount cartridge type spindle
- High accuracy ABEC-7 spindle bearings
- Cable driven table with roller balls on hardened steel way
- Centralized one-shot lubrication
- 1 Year Warranty

Standard Equipment:
- One 8" x 1" x 1-1/4" Grinding wheel
- 6" x 18" Permanent magnetic chuck
- Flood coolant system
- Diamond-tipped table dresser
- Wheel flange adapter
- Leveling bolts and pads

ACER 6" x 18" Surface Grinders

Features:
- Spindle runout within 0.00008”
- Meehanite castings including: saddle with double-vee turcite ways
- Cog-type timing belt drive system ball-rolling table ways/“Turcite B” way (AH model)
- 24-Volt safety control
- Push-button starter with overload protection
- 19-5/16” Workpiece height
- Model S618II is a manual surface grinder with Ball Bearing Ways
- 1 Year Warranty

Standard Equipment:
- Auto Lubrication, Halogen Work Light, Diamond Dresser, Tool Box, and Complete Instruction & Parts Manual

CHEVALIER 6" x 18" Precision Handfeed Surface Grinder

Features:
- 2HP low vibration spindle motor
- Spindle run-out within 0.00006”
- High precision cartridge-type spindle equipped with 4 pieces of class 7 angular contact ball bearings
- Hardened & ground table guideways with steel balls
- Patented, continuous loop, steel core reinforced and cog timing belt system
- Flatness is guaranteed to be within 0.0001” for the entire working surface
- Saddle travels on hand scraped double V guideways, laminated with Turcite-B
- Table handwheel can be indexed for ease of operation
- Automatic continuous lube system with oil flow indicator on column
- Meehanite casting
- 1 Year Warranty

PALMGREN 8" x 18" Surface Grinder

Features:
- Meehanite cast iron construction
- High precision cartridge type spindle
- Runout at the spindle nose taper is less than 0.000070” (0.0020mm) T.I.R.
- Double V hand scraped and Turcite B coated way system on both the table longitudinal and cross feed
- Precision steel balls produce extremely smooth operation of the table along the ways
- Automatic lubrication system
- Spindle and motor are a direct drive one piece design
- 3 Year Warranty

Clausing 8" x 18" Manual Surface Grinder

Features:
- High precision cartridge spindle
- Anti-wear guide ways coated with “TURCITE-B”
- Enlarged column and base create high stability & rigidity
- Automatic lube system to lubricate lead-screws and guideways for greater longevity
- Timing belt table drive which has enclosed high tensile steel cores that ensure more smooth table movement and longevity
- Base tool cabinet for storage of tools, fixtures and manuals
- Heavy-Duty cast iron construction
- 2 Year Limited Warranty

PALMGREN 10" x 20" Automatic Surface Grinder

Features:
- Meehanite cast iron construction
- High precision cartridge type spindle
- Runout at the spindle nose taper is less than 0.000070” ;(0.0020mm) T.I.R.
- Hydraulic feed machine features hand scraped and Turcite B coated way system on both the table longitudinal an cross feed
- Automatic lubrication system
- Spindle and motor are a direct drive
- 3 Year Warranty

New!

Control System Features:
- Microprocessor based control system
- Step-by-step data input system
- Stock removal rates and feed conditions are digitally inputted
- Full automatic grinding cycle for coarse and fine grinding combine with spark out process
- Traverse and plunge automatic cycles
- Digital display
- Adjustable magnetic chuck holding power
- Grinder can be used in full automatic cycle or manually

ACER Large Capacity 3-Axis Automatic Surface Grinders

For Basic General Purpose Grinding — Easy To Operate

Features:

- Reinforced high column and heavy weight Meehanite casting
- Direct drive spindle equipped with 4 ABEC-7 angular contact ball bearing
- Auto surface and plunge downfeed
- Precision-coated Teflon® ways
- Double-V crossfeed ways
- Longitudinal ways: one “V” and one Flat way
- Dual hydraulic pump system: one each for X-Axis longitudinal table and Z-Axis for automatic incremental downfeed
- Hydraulic Table Feed Speed 16-80 SFPM
- Electronic Y-Axis crossfeed
- 24 Volt safety circuit control
- 1 Year Warranty

Standard Equipment:

- AGS-1020AHD: Electro-magnetic chuck, dust suction and coolant system and parallel dresser
- AGS-1224AHD: Electro-magnetic chuck, coolant with paper filter system and parallel dresser
- AGS-1632AHD: Electro-magnetic chuck, coolant system, magnetic separator and paper filter system, parallel dresser and a ball leadscrew on crossfeed
- AGS-1230AHD: Electro-magnetic chuck, coolant with paper filter system and parallel dresser
- Rapid power
- Spindle elevation
- Automatic lubrication
- Halogen light
- Splash guard
- Tool box with tools and operating manual
- Parts manual

AGS-123AHD Includes:

- Coolant system with paper filter
- Parallel dresser
- 12 x 28” Electro-Magnetic chuck
- Variable chuck control master
- Wheel balance base
- Grinding wheel
- Manual diamond dresser
- Toolbox with tools
- Wheel balancing arbor
- Wheel Flange
- Halogen work light
- Splash guard - set

KENT USA 12" x 30" 3-Axis Automatic Surface Grinder

Features:
- 3-Axis Automatic movement
- Hydraulic powered longitudinal table, Electronic automatic crossfeed and Electronic incremental downfeed
- Precision hand scraped Turcite table and saddle ways
- High column design with rapid elevation motor
- 23" Spindle center clearance under wheel to the table
- Centralized automatic one-shot lubrication
- 24 Volt safety circuit control
- 1 Year Warranty

Standard Equipment:
- Electro magnetic chuck with automatic demagnitizer control
- Coolant system with built-in dust collector
- Parallel overhead wheel dresser
- 14" x 1-1/4" x 5" Grinding wheel
- Wheel flange adapter
- Diamond point table dresser
- Work light
- Leveling bolts and pads

Clausing Precision 3-Axis Automatic Surface Grinders

Features:
- Vertical feed powered by dual motors, AC motor for rapid up/down and stepping motor for the micro downfeed positioning, slow auto downfeed and slow up/down
- Cross traverse travel powered by DC servo motor, allows step feed and continuous infeed grinding
- High quality ribbed, cast iron table, saddle and base
- Automatic continuous lubrication to minimize wear on slideways & screws
- High Grade Anti-Wear Slideways are hand scraped and the table is coated with "TURCITE-B"
- 1 Year Warranty

PALMGREN Bench Grinders

- Palmgren's bench grinders are designed and built with high-quality motors for heavy duty use and long duty cycles
- Our stated horsepower is actual sustained horsepower under 100% loads with less than 1% loss from stated RPMs at same 100% loads
- Designed to do more, a Palmgren bench grinder provides you with 4 to 7 times longer duty cycles under load and 8 times less speed degradation than any other competitor
- Palmgren's line up of industrial grade bench grinders provide smooth, quiet power for all grinding, cleaning, deburring, chamfering and sharpening jobs
- Designed to handle heavy stock removal to finishing applications these powerful units are built for continuous, efficient use all day, every day
- Extended wheel-to-wheel clearance which allows longer items to be ground easily
- Dynamically balanced rotors and sealed bearings minimize vibration and ensure smooth running
- Large adjustable tool rests for safe, efficient tilt and angle grinding
- Adjustable safety eye shields and spark guards easily positioned with hurricane bolt
- Maximum performance, accuracy and value 9682061 comes with wheel guards with no dust collection ports
- Units fit Item # 9670101 or Item # 9686000 tool stands
- 3 Year Warranty
- F.O.B. WARREN, MI

PALMGREN INC Heavy Duty Variable Speed Bench Grinders

New!

- Deluxe variable speed bench grinders deliver the power, precision and versatility
- At maximum rpm's they are built for heavy material removal, deburring and chamfering applications
- At the lower rpm range they effectively handle the more delicate cleaning, polishing, sharpening and other finishing operations
- Equipped with the latest technology variable speed inverter
- Powerful, heavy-duty capacitor motors
- LED speed readout with "soft" touch on/off and variable speed control pad
- 3 hard speed switch settings 900 / 1800 / 3600 RPM for the 6" & 8" models and 900 / 1800 / 2400 RPM for the 10" model
- Press the high or low switch button on touch pad to variably adjust the speed up or down in 100 RPM increments
- Dynamically balanced rotors and sealed bearings
- Extended wheel to wheel clearance
- Large adjustable tool rests
- Adjustable safety eye shields and spark guards
- Exclusive single port dust collection
- Units fit Item # 9670101 or Item # 9686000 tool stands
- 3 Year Warranty

PALMGREN INC Heavy Duty Bench Grinders

New!

- POWERGRIND-XP™ are the next generation in bench grinders
- They provide more horsepower, torque and value added features delivering high productivity grinding solutions
- A cut above the rest POWERGRIND-XP industrial grade bench grinders provide smooth, quiet power for all your bench top grinding and finishing needs
- Industrial grade capacitor motors
- Dynamically balanced rotors and sealed bearings to minimize vibration and ensure smooth running
- Extended wheel-to-wheel clearance which allows longer items to be ground and finished easily
- Large adjustable tool rests easily adjusted with hurricane bolts for safe, accurate grinding
- Comes with three tool rests – (2) standard flat top and (1) V-grooved top for sharpening drill bits with 118° drill point angle and 6" and 8" bench grinders include a wheel dresser
- 36 and 120 grit grinding wheels
- 3 Year Warranty

PALMGREN Variable Speed Buffers

New!

- Delivers the power, precision and versatility
- At maximum rpm's they are built for intermediate blending, polishing and surface conditioning applications
- At the lower rpm range they effectively handle the more delicate final finishing, polishing, buffing and surface finish refinement operations
- Equipped with the latest technology variable speed inverter delivering a broad range of continuous speeds
- Powerful, heavy-duty capacitor motors provide additional torque and provide plenty of power at all speeds without any loss of rpm's at full load
- LED speed readout with "soft" touch on/off and variable speed control pad
- 3 hard speed switch settings 900 / 1800 / 3600 RPM for the 6" and 8" models and 900 / 1800 / 3000 RPM for the 10" model
- Press the high or low switch button on touch pad to variably adjust the speed up or down in 100 RPM increments from the hard rpm setting
- Dynamically balanced rotors and sealed bearings
- Extended wheel to wheel clearance
- Units fit Item #9670101 or Item #9686000 tool stands
- 3 Year Warranty

WS3000 Wood Tool Sharpener

- Work Sharp is an air cooled, dry sharpening system that uses maintenance free 150mm tempered glass wheels for adhereing PSA abrasives to
- Precise and repeatable sharpening port enables sharpening of 20, 25, 30, and 35 degree angles
- No jigs needed, just select angle and sharpen; lapping abrasive in sharpening port increases burr removal and speeds sharpening
- Forced air-cooling and the sharpening port heat sink allow for higher material removal rates without affecting the steel temper

- Ideal for shaping, forming, snagging, deburring, chamfering and finishing operations
- These belt grinders can be quickly converted from heavy stock removal and grinding, to finishing operations by simply changing the belt
- The machines come with a large serrated contact tire for removing heavy stock or cleaning up work pieces and a large graphite covered platen for the shaping and finishing of flat pieces
- Generous spark box delivers added operator safety
- Advanced belt tracking design
- Belt enclosure prevents dust from escaping by effectively ventilating the contact tire, drive wheel and belt with air circulation from the machine
- Eye shield ensures user safety
- Motor overload protection with conveniently positioned emergency on/off switch
- Dual dust collection ports located on the front and back of the machine
- Adjustable height of the contact tire
- Sanding belt 60 grit and wrench
- 3 Year Warranty

PALMGREN INC 8" x 69" Belt Grinder

- Can be quickly converted from heavy stock removal to finishing operations by simply changing the belt
- Ideal choice for all you shaping, forming, snagging, deburring, chamfering and finishing operations
- Production duty 2-speed motor
- Direct drive design with oversized shaft and bearings
- Fully enclosed adjustable guarding
- Tool rest
- Simple easy belt tension and tracking
- Belt is mounted to an oversized motor shaft with sealed bearings
- Lower drive drum is ribbed 60 Duro rubber coated for maximum belt traction
- Lower drum guard
- Belt head adjusts vertically, horizontally and any position in-between
- Hardened steel platen with extra-large work area for flat long parts
- 3” dust port
- Safety electrical system: white power on light, green machine running light, 2-speed hi/low drum switch, push button on/off power switch with keyed lock-out, emergency stop push button with electronic brake and 24 volts at all switches
- Heavy duty steel floor stand with hinged door, internal storage and anti-vibration foot pads
- 3 Year Warranty

Air Operated Presses

MADE IN THE USA

Features:
- Air operation eliminates the need for hand pumping
- Safety valve protects against overloads
- Movable workhead is roller mounted on ball bearings for off-center work
- Rapid ram approach quickly moves ram to work to save production time
- Stroke indicator ensures accurate ram control
- By-pass hole eliminates excessive ram extension
- Adjustable table permits easy vertical movement by means of self-lockiong hoist

Standard Equipment:
- Frame
- 2 Steel V-Blocks
- Flat Ram Nose
- Stroke Indicator
- Safety Relief Valve
- Workhead
- 2 Steel Table Plates
- Pressure Gauge
- Self Lockiong Table Hoist

Elec-Draulic I Hydraulic Presses

Features:

- Single acting cylinder permits a pressing ram action, not retracting
- Rapid ram approach quickly moves the ram to work to save production time
- Variable ram speed allows precise control of ram travel and pressure
- Stroke indicator ensures accurate ram control
- Adjustable table with self-locking hoist
- Movable workhead is roller mounted

MADE IN THE USA

20 Ton Shop Presses

MADE IN THE USA

New!

- Compact and powerful
- Heavy duty 3/8" steel construction
- Cylinder with 2" Ram and 6-1/4" Stroke
- Rolling cylinder provides maximum versatility
- Working area of 10-1/2 x 20"
- Easy to use Hand/Jog Controls
- Quick Disconnect Hoses
- Hydraulic-Assist Table Height Adjustment
- Unique open sided design allows material to pass through the frame
- Power it up with an Edwards Ironworker with factory installed Hydraulic Accessory Pack or an Edwards Porta Power 5HP, 2750 psi portable power unit. Check out the 12" Press Brake Tooling, bump-die tooling, the 6 Piece Press Tooling Set and the Press Brake Back Gauge
- 1 Year Warranty

60 Ton Shop Presses with PLC

- PLC provides added versatility and saves time
- Rolling cylinder provides maximum versatility
- Unique open sided design allows material to pass through the frame
- Convenient, effortless foot control for ease of use
- Quick connect hoses deliver “plug & play” operation
- Optional Tooling: Press Brake Tooling, 6 Piece Press Tooling Set, Back Gauge

Programmable Logic Control (PLC):

- Improve your productivity to 50%
- Provides adjustable up/down stroke control
- Adjustable PSI
- Magnetic control box mounts anywhere on the shop press

Powermate Single Stage Air Compressors

PT60-PLD1581519 Features:
- 200 Max PSI for longer air tool run times and increased project efficiency
- Long life oil free pump
- 7” wheels for shop/job site protability

PT60-PP1682066MN Features:
- One-piece cast iron crankcase
- Thermally stable cast iron cylinder body
- Aluminum head and machined cast iron valve plate
- Durable stainless steel reed valves
- Oil level sight glass
- Easily accessible oil fill
- 10” cast iron balanced flywheel
- Heavy duy induction motor
- Dual voltage motor wired for standard 120 volt
- Equipped with quick-set regulator, tank and tool pressure gauges, quick connect air outlet and on/off switch

PT60-PLA4708065 Features:
- High air flow,
- Cast iron, three cylinder, oil lubricated pump
- Heavy duty, 240 volt induction motor
- Large capacity, 80 gallon ASME air receiver
- Wired formed belt guard for more efficient cooling
- Shipped with synthetic oil

PT60-PLA1683066 Features:
- Heavy duty induction motor
- Portable tank equipped with pneumatic tires
- Dual voltage motor is wired for standard 120 volt outlet
- Fully assembled and equipped with quick-set regulator, tank and tool pressure gauges, quick connect air outlet and on/off switch

PT60-PLA3706056 Features:
- Cast iron twin cylinder pump
- Heavy duty induction motor
- Shipped with synthetic oil for optimum performance and long life
- Equipped with pressure gauge and on/off switch

Single Stage Portable Air Compressors

- Oil lubricated belt drive technology provides quiet operation, Less noise than direct drive air compressors (Models IP1982013 & IL1983013)
- Long lasting twin cylinder pump combines cast iron cylinders with aluminum cooling fins (Models IP1982013 & IL1983013)
- One-piece cast iron crankcase (Models IL1682066.MN, IP1682066.MN, ILA1683066, IPA1882054 & ILA1883054)
- Thermally stable cast iron cylinder body (Models IL1682066.MN, IP1682066.MN, ILA1683066, IPA1882054 & ILA1883054)
- Aluminum head & machined cast iron valve plate (Models IL1682066.MN, IP1682066.MN & ILA1683066)
- Aluminum head & valve plate (Models IPA1882054 & ILA1883054)
- Automotive style ball bearings Models IL1682066.MN, IP1682066.MN, ILA1683066, IPA1882054 & ILA1883054)
- Durable stainless steel reed valves Models IL1682066.MN, IP1682066.MN, ILA1683066, IPA1882054 & ILA1883054)
- Oil level sight glass Models IL1682066.MN, IP1682066.MN, ILA1683066, IPA1882054 & ILA1883054)
- Easily accessible oil fill Models IL1682066.MN, IP1682066.MN, ILA1683066, IPA1882054 & ILA1883054)
- 10” Cast iron balanced flywheel (Models IL1682066.MN, IP1682066.MN & ILA1683066)
- 12” Cast iron balanced flywheel (Models IPA1882054 & ILA1883054)
- Heavy duty induction motor for maximum performance and efficiency
- Equipped with quick-set regulator, tank and tool pressure gauges, quick connect air outlet and on/off switch (Models IL1682066.MN, IP1682066.MN & ILA1683066)
- Shipped with synthetic oil (Models IPA1882054 & ILA1883054)
- Equipped with quick-set regulator, tank and working pressure gauges, and on/off switch (Models IPA1882054, IP1982013, IL1983013, & ILA1883054)
- UL & CSA CERTIFIED
- ASME certified tank
- Two year limited warranty

JET Single Stage Vertical Air Compressor

Features:
- 125 PSI maximum operating pressure
- Single stage, cast iron pump
- ASME certified tanks
- The critical components of the crankcase, crankshaft and cylinders are cast iron
- The precision machined aluminum head and valve system dissipates heat quicker
- Fully enclosed metal belt guard
- Built-in safety valve and pressure switch
- Industrial duty motors
- Weather resistant power coat finish
- Open feet design for ease of drain
- CSA/C US certification
- Three year warranty

Ingersoll Rand R-Series Two Stage Rotary Screw Air Compressors

- V-Shield Technology- Provides a totally integrated, leak-free design featuring PTFE Stainless Steel Braided Oil Hoses and O-Ring Face Seals
- Sequential Cooling System Significantly improves reliability and serviceability by providing cool clean ambient air to key electrical components
- Time-Proven Air ends- advanced design integrating key components in order to reduce leak paths and improve reliability, as well as improving VSD turndown
- Xe-Series Controller- standard microprocessor controller included on all units, providing improved productivity
- R-Series Total Air System (TAS) - provides clean, dry air in a single package that minimizes installation costs and space
- Tri-Voltage TEFC Motors - totally enclosed fan cooled motor
- Premium Efficiency Design - Premium IE3 motor designed to provide peak efficiency

Burr King VibraKing® Mass Finishing Bowls

Features:

- Built-in flow-through drain for use wet or dry
- 1/10HP Motor has adjustable amplitude to provide a range of finishing needs from gentle to aggressive and is ideal for small parts
- Runs on 115 Volt/1 phase

Burr King will run your parts and return to you a finished part with media recommendations, machine, and a time study. Call for details.

TRINCO Master Model Dry Blast Cabinets

- Master Models with the BP-2 100 CFM Dust Collectors are designed for intermittent blasting operations or for light to medium amounts of blasting
- BP Dust Collector vacuums the dust and contamination form the cabinet
- Media is then recycled from the gun system to the hopper and back to the gun system
- The BP-2 Dust Collector is well suited for most types or media
- Fluorescent lighting to eliminate shadows and minimize energy consumptio.
- Large 12” x 24” safety glass windows for excellent visibility and increased efficienc.
- Air pressure regulator and gage
- Double floor 1/8” expandex steel plus carbon screen
- Come with standard BP-2 100 CFM dust collector
- 1 Year Warranty

TRINCO™ Master Model Dry Blasters With Abrasive Separators

- Designed to keep media free of contaminants
- During blasting, media is suctioned into the abrasive separator, where the dust and contaminants are removed and exhausted into a filter bag
- The cleaned media then returns to the cabinet for reblasting.
- Ideal for blasting painted, rusted, and corroded parts.

300 CFM Abrasive Separator

- Is available on Models 36 through 48” x 24” Split Level
- Is suited for medium to heavy amounts of blasting where media separation is needed
- Is suited for use with glass beads or other “fine” media only

600 CFM Abrasive Separator

- Is available on Models 40” x 40” Split Level and larger
- Is suited for medium to heavy amounts of blasting where media separation is needed
- Is suited for use with most types of media including glass beads and aluminum oxide
- 1 Year Warranty

450 CFM Abrasive Separators

- Available for all Models 36 through 48 x 30 Split Level Balsters and used in medium to heavy blasting where seraration is needed and can be used with Glass Beads or Aluminum Oxide. Call for Details.

TRINCO™ Dry Blast Media

TRIN-MIXES: Trinco's exclusive combination of glass bead and aluminum oxide delivers fast and efficient cutting action while maintaining close tolerance and a fine satin finish.
TRIN-MIX #4: The finest, it is ideal for removing light-to-medium contamination from tools, precision parts, molds, and dies. A general purpose media which is used in a wide range of applications from texturing plastic injection molds to providing appealing finishes on exposed stainless steel and aluminum surfaces.
TRIN-MIX #2: More aggressive and faster cleaning, Trin-Mix 2 leaves a slightly rougher finish. Ideal for heavier contamination. Dimensional changes of .001 may occur.
RAD-MIX: Most aggressive. Developed for radiator cleaning. It is ideal for removing tough contamination from surfaces with a minus .001 inch tolerance or better.
NUT SHELLS: Soft aggregate used in removal of foreign matter or coatings from surfaces without etching, scratching or marring cleaned areas. Applications include delicate molds, armatures and electric motors prior to rewinding.
SILICON CARBIDE: Extremely hard but friable abrasive used in blasting, grinding and polishing very hard materials, i.e. granite, ceramics, glass, marble. May be used on soft resilient plastics. Meets ANSI standard B74.12-1976. It comes in a full range of sizes.
TRIN-BLAST ALUMINUM OXIDE: The fastest abrasive for general blasting, dimensional changes of .001 to .002 may occur. Guaranteed First Quality Virgin Grain meets ANSI standard B74.12-1976, Military Standard A21380-B. Consistent, resistant to breakdown, very low iron content. It comes in a full range of sizes.
TRIN-BEADS GLASS BEADS: Ideal for removing foreign matter from workpiece, without removing base metal, changing dimensions, contaminating parts or overstressing. Full range of sizes are available.
- 50 Lb. box sizes

Leveling Jacks

Wedge Action Leveling Jack Features:

- Lower surface of wedge is specially contoured to float laterally within concave base unit, automatically conpensating for uneven floor conditions up to 5° of slope
- Wedge action allows easy adjustment of height (1/4” - 3/8”) with the turn of a wrench
- Two-piece design that provides solid support from 3,000 to 9,000 lbs./ft.
- Low-profile leveling jack is ideal for applications constricted by reduced height

MADE IN THE USA

Vertical Motion Leveling Jack Features:

- Three-piece design combines the advantages of a wedge-action jack with vertical lift capabilities in one unique and practical unit
- Level and support up to 30,000 lbs./ft.
- For precision machine leveling and support

UNISORB® Level-Rite® Machinery Mounts For Hollow Base Machines

- Designed for hollow bases as found on certain models of mills, lathes, grinders and other machines
- Provides vibration control, leveling and support
- Pads are made from engineered felt to reduce vibration and noise
- Pads provide an extremely high coefficient-of-friction between the pad and the floor surface to provide maximum protection against machine movement without physical anchoring
- Pads are unaffected by oils and solutions used in manufacturing plants

MONROE Leveling Pads

MADE IN THE USA

Socket Type Features:

- Leveling pads swivel 10° each side of the centerline to adjust to uneven surfaces
- Large-diameter pad design assures solid support
- Hardened ball prevents galling and forms to its own seat
- Zinc plated and gold plated to resist rust

Stud Type (with Jam Nut) Features:

- Offering many leveling applications, the integral stud allows vertical adjustment to compensate for uneven floors
- Jam nut secures the adjustment
- Pad swivels 10° in all directions and automatically adjusts to uneven surfaces
- Pad is zinc plated and gold plated to resist rust

Two-Life Drawbars™

- To Obtain “second life” after end wears out, cut off at “V” notch and remove large spacer
- Two drawbars in one
- Back-Up Advantage
- Prevents excessive downtime
- Longer hex head
- Extended thread length
- Black oxide coated

Bridgeport by HARDINGE Down Feed Handle Assembly

- Heavy-duty—will not bend or break
- Replacement for conventional down feed handle
- For J or 2J style machines

Order No.	Price
RL352201033	Price

Quill-Feed Speed Handle For Bridgeport Milling Machines Only

Does not fit Import Mills

- Time-saving accessory for Bridgeport operations
- No more pulling off and resetting the quill-feed handle for any repositioning
- Flick of the wrist retracts pin from index plate of the quill-feed mechanism and lets you move handle into any desired position
- Speeds operations considerably
- Replaces conventional feed handle in seconds
- No holes to be drilled
- Heavy duty construction, handle will not bend or break

Order No.	Price
NB80Z9900	Price

"Twin-Grip" Quill Feed Speed Handles

- Eliminate the need to pull off and reset the quill feed handle
- A simple turn of the hand will retract the pins from the index plate of the quill feed mechanism and lets the operator move the handle into any desired postition
- Replace standard feed handles within seconds
- No holes to be drilled
- Rugged all steel construction
- 5 Year Warranty

Center It

- Enables the drilling of round pieces parallel & centered
- 7/16" Groove with 118° angle lets you bottom drill bit to center v-block and bolt in place
- 5"L x 4"W x 1-3/4"H
- Grooves on the outer sides eliminate slippage

Order No.	Price
HT60CIT	Price

Swing-Away Adjustable Safety Guard

- Designed specifically for use on mill/drill machines, vertical turret milling machines and larger size drilling machines
- Shields are intended to deliver protection by deflecting chips, sparks, coolant or lubricants away from operator
- Unit is made of strong cast iron brackets and high impact polycarbonate
- Height clearance is easily adjusted with convenient locking knobs located on the mounting bracket
- Large shield easily swings in or out
- Size: 16"L x 13.5"W x 8"H
- Weight: 9 lbs.

Order No.	Price

Maxi Torque-Rite Power Drawbar Kits

- Fits Bridgeport and all similar milling machines
- Installs in just minutes on most machines with R-8, taper spindle
- Changes a tool in seconds
- Can deliver 40 to 50 foot/lbs.of torque, not 15 to 25 like the competition
- Will virtually eliminate tool slippage in collets on heavy cuts
- 1 Year Warranty
- **Kit Includes:** air filter, regulator & lubricator, drawbar, extra long air hoses, and all mounting hardware

Phase-A-Matic Static Phase Converters

Runs Motor Loads Only at 2/3 Rated HP

How To Size:

- The largest motor on your machine must fall within the minimum and maximum range of the converter
- Do not order a larger unit or heavy duty model thinking it will give more horsepower

When To Use Heavy Duty:

- Heavy starting loads (lathes, flywheel driven equipment,etc.)
- Instant reversing, frequent starting, jogging
- Air compressors (motor pulley must be reduced by 1/3 in diameter)

Heavily Loaded Equipment:

- For pumps, fans, blowers, direct-drive compressors, or equipment requiring greater than 2/3 of its rated HP, you must USE A PHASE-A-MATIC™ ROTARY CONVERTER.

Type - Regular Duty Static Phase Converter

MADE IN THE USA Phase-A-Matic Rotary Phase Converters

Full Power Converter - Resistive & Motor Loads

Features:

- Heavily loaded applications
- Multi-motor operation
- Multi-speed applications
- No changing motors or switch gear
- Full 12 month warranty
- Easy to install
- No interference to TV, Computers, etc.
- In stock for immediate delivery
- For larger sizes or 460V operation, consult factory
- Heavy load applications also 460V models

R2

NOTE:

- For long, heavy starting loads, instant reversing, momentarily overloaded motors, or imported equipment, contact factory, or refer to Application Guidelines RTN.
- Voltage Stabilizer available for high line voltage & voltage sensitive equipment such as CNC/PLC 's

MADE IN THE USA Phase-A-Matic Voltage Stabilizer

- For CNC and other voltage sensitive equipment
- A Voltage Stabilizer, Rotary Converter COMBINATION, when properly sized, provides the necessary voltage balance of close to +/-5% or less between legs and helping to keep output voltage stable during peak loads, helping CNC and other voltage sensitive equipment to operate properly
- Most CNC machines require a Voltage Stabilizer, Rotary Converter COMBINATION sized 1-1/2 to 2 sizes larger than the spindle motor to accomadate the extra amps for starting, instant reversing, and for the servos, hydraulics, etc

Mitutoyo AT715 IP67 ABS-DRO Systems

with Submersible Oil and Coolant Proof Magnetic Scales

- Use a new Electromagnetic Induction Detection method for improved reliability and contamination protection
- True Absolute Scale Technology means your original part datum point is never lost, even after power down.
- Increased production by putting the coolant where it's needed, without having to worry about scale damage
- Less downtime for maintenance.

Mitutoyo Absolute DRO System Lathe Packages

- KA-200 counter
- AT116 and AT715 linear sclae combinations (with cables)
- Mounting bracket kit
- Counter tray
- Additional extension calbe (2m) include in 60" and 72 " packages
- 5 Year Warranty

NEWALL NMS800 Digital Readouts

- NMS800 DRO Display - 2 Axis
- Encoder Assemblies
- Spherosyn Serial Reader Heads
- Spherosyn® Serial Scales
- Scale Support Brackets
- Mounting Bracket Kit
- Display Moutning Arm
- NMS800 Features
- Datum preset/reset
- Inch/mm
- Abs/Inc
- Ref location
- 1/2 Function
- Linear and segmented error comp per axis
- Radius/diameter axis setting

New!

- RPM display for rotary encoder input
- Standard calculator functions
- Tool change (new operation); Sets the current tool type, offsets, diameter, etc
- Display message (new operation);Will display a text message to the screen (mainly for use in Jobs)
- Bolt hole/PCD;Selectable start and end angle (for full or partial circles)
- Line/Grid; Selectable angle; Selectable number of holes X direction (line); Optional number of holes Y direction (grid)
- Arc contour/Incline; Selectable plane (X-Y, Y-Z, X-Z); X-Y plane would be like current Arc contour; Y-Z and X-Z would cover incline (arc going up instead of flat)
- Taper calculator
- Slot; Selectable start point, orientation (X or Y axis) and length; Slot width determined by current tool diameter
- Pocket/Island; Selectable width, height and location; Pocket will compensate tool inside W and H; Island will compensate tool outside W and H
- Lathe vectoring

NEWALL SHG-TC Linear Encoders

- Direct plug and play replacement of Acu-Rite glass scales
- Withstands dust, dirt, chips, coolant and oil
- IP67 rated (fully submersible)
- Tolerant to shock and vibration

Specs:

- Accuracy Grade: 5µm / 0.0002”
- Resolutions: 1µm / 0.00005”
- Reference Type: Distance-Coded
- Maximum Traverse Rate: 4m/s at 1µm resolution
- Operating Temperatre Range: 0. to 55°C (32 to 131°F)
- Storage Temperatrue Range: -20 to 70°C (-4 to 158 .0176°F)
- Scale Material: Stainless Steel
- Standard Cable: 9 core screened cable with PUR (polyurethane) cover with no armour
- Cable Length: 0.5mm / 20”
- Connector: D Type 15 Pin (IP54, NEMA 6)
- EMC Compiance: BS EN 50081-2 & BS EN 50082-2

NEWALL SHGTC Linear Encoder Reader Heads

- Direct plug and play replacement of Acu-Rite glass scales
- Withstands dust, dirt, chips, coolant and oil
- IP67 rated (fully submersible)
- Tolerant to shock and vibration

Specs:

- Accuracy Grade: 5µm / 0.0002”
- Resolutions: 1µm / 0.00005”
- Reference Type: Distance-Coded
- Maximum Traverse Rate: 4m/s at 1µm resolution
- Operating Temperatre Range: 0. to 55°C (32 to 131°F)
- Storage Temperatrue Range: -20 to 70°C (-4 to 158 .0176°F)
- Scale Material: Stainless Steel
- Standard Cable: 9 core screened cable with PUR (polyurethane) cover with no armour
- Cable Length: 0.5mm / 20”
- Connector: D Type 15 Pin (IP54, NEMA 6)
- EMC Compiance: BS EN 50081-2 & BS EN 50082-2

ACU-RITE® Precision Glass Scales

SENC 150 PRECISION GLASS SCALES:

- The SENC 150 precision glass scale, designed to satisfy a wide range of application needs, incorporates the latest innovation in roller bearing technology for reduced backlash and greater scale travel life
- It also features a highly integrated scanning sensor that provides superior contamination resistance
- Scales 65" and over include Backup Spars
- Scales over 42" may require Extension Cables
- Note total overall scale length equals measuring length plus 6.375" (161.9mm). Actual Travel is 1-3/4" Longer than the Measuring Length. Except the 32" scale which has a total travel of only 31.125".

Features:

- Resolutions of .00005" (1µm) and .0002" (5µm)
- Travel lengths from 2" - 120"
- Reader Head and Armor Cable
- Vinyl cable available
- Flexible mounting features
- Position-Trac™ Home Reference System
- 2 Year Warranty

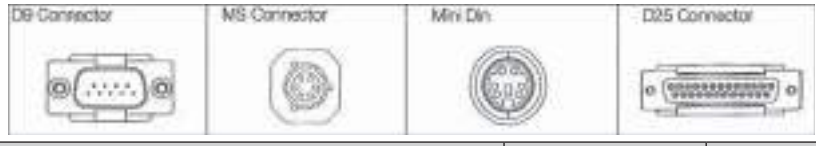
From the moment you power up your MILLPWR$^{G2®}$ system, you'll know it was built with convenience in mind. From the exceptional clarity of a large full-color LCD display to the added advantage of full 3D contouring capabilities and menu-prompted conversational programming, essential functions are only a key stroke away. Use MILLPWR$^{G2®}$ as a full function digital readout system, a programmable CNC control or both. It's powerful enough to handle any job and easy enough for anyone to operate. No prior programming experience necessary.

ACU-RITE® Interface Cables for Scales & Consoles

- Used to run SENC 150 Scales with old systems and old scales with different consoles
- 2 Year Warranty

MADE IN THE USA



Description	Comments	Order No.	Price
D9 to D9 Interface Cable	Used to interface Millmate or TurnMate scales with a VUE or 200S for Milling, Turning and Grinding Readout	**MS30385210103**	Price
D9 to MS Interface Cable	Used to interface an SENC 150 Scale with an ACU-RITE II, ACU-RITE III, Qwikcount, Master-G, Master-MP, Master-TP, Turnvision or MillVision Readout	**MS30385210102**	Price
Digital to Analog Interface Cable	Used to interface Millmate or Turnmate with 5um SENC 150 (note this cable will only work with 5um SENC 150 Scales)	**MS30385210104**	Price
MS-D9 Differential Signal Interface Cable	Used to interface Mini scales, Old AR-5 Scales or Old AR-10 PLUS Scales with a VUE, 200S, DRO 200E or 300S Readout	**MS30385210101**	Price

ACU-RITE® MILLPWR G2 Upgrade Kit

Features:
- 2 or 3 Axis Conrol / 3 Axis Readout
- Larger Display (12.1" 1024 x 768 TFT LCD)
- 2D and 3D Graphic Views
- Enhanced, Intuitive Program Navigation
- Increased Program Size Limit (Up to 9999 Steps)
- Auto Save Feature
- USB Connectivity - Front & Back
- G-Code with Graphics Support and Optional Stop Feature
- Preview Programs with Graphics and Estimated Time
- Improved Error Compensation
- Multiple Datums and Near Zero Warning in DRO Mode
- On-Screen Help with Text and Graphics
- Die-Cast Metal Bezel and Back
- Upgrade may require additional hardware i.e. IO/spindle control, etc.
- 2 Year Warranty

Order No.	Price
MS32MILLPWRG2UP	Price

F.O.B. Chicago, IL

ACU-RITE® MILLPWR G2 Control Systems

Features:
- USB & Ethernet compatible
- Simplified navigation that eliminates multiple menu screens
- 12.1" high resolution display with 3D graphics
- 1.4 GHz processor
- Estimated runtime feature
- Expanded tool / datum offsets
- Precision ground ball screws
- Closed loop linear glass scale feedback
- 2 Year Warranty

Includes:
- Remote stop/go switch
- Ball screws
- (1um/0.00005" resolution) precision linear encoders
- Servo drives and motors
- Motor mounting castings and hardware
- Handwheels
- Console and encoder mounting hardware
- Machine specific bracketry
- MS3282097165S Includes AMI Control for Acer Mills

Misión

Proveer de productos de alta calidad que cubran las necesidades y expectativas de nuestros clientes, complementándolo con el buen servicio y soporte técnico por nuestros equipo de trabajo, esto con la finalidad de ser siempre la mejor opción.

Visión

Ser el mejor distribuidor de herramientas de cortes para el área metal mecánica a nivel nacional, partiendo de un excelente servicio y así creando las mejores soluciones para nuestros clientes.

Política de Calidad

Es deber de nuestra empresa distribuir productos de calidad y ofrecer servicios de acuerdo a las necesidades de nuestros actuales y futuros clientes de la industria en general en el mercado nacional, manteniendo siempre empatía así como el desarrollo en conjunto de los procesos necesarios y la creación de soluciones para el logro mutuo de los objetivos a través de la mejora continua.
